

# TEUTON TURMOIL LESSENS UNDER EBERT'S RULE

## Benson Is Accused by Sims

### SHIP HEAD BRITISH HATER, CLAIM

#### 'Wool Over Eyes' Phrase Laid to Trade Vessel Chief During Quiz

WASHINGTON, Mar. 22.—It was Admiral W. S. Benson who warned Admiral Sims "don't let the British pull the wool over your eyes," Sims declared at the Senate naval inquiry today.

Several weeks ago Sims told the Senate naval sub-committee that such a warning had been given to him during a conference of the navy department as he was about to sail for Europe only a few weeks before this country entered the war.

Benson at the time of the alleged utterance was chief of naval operations. He is now head of the shipping board.

"It was just after I came out of the secretary's office or just before I went in, I can't remember which," Sims said, "that these instructions were given by a certain official of the navy department," Sims said.

"I have tried to avoid any personal reference."

Asks Officer Named

"I think the committee should have the name of the officer," Chairman Hale stated.

"Well, it was Admiral Benson who was then chief of naval operations," Sims said. "I received no other instructions from him. It was preceded by nothing, followed by nothing and told me in all seriousness. I left immediately."

Sims referred to Benson as being intensely "anti-British" and said his statements were repeated in substance on two occasions.

Sims said that when he met Benson in Paris six months later the admonitions were repeated in substance and a third time the same thing happened in London.

"I regarded this as a personal prejudice on the part of Admiral Benson," said Sims.

The instructions Sims alleges Benson gave him were, "Don't let the British pull the wool over your eyes. It is none of our business pulling their chestnuts out of the fire. We would as soon fight the British as the Germans."

"I have always considered Benson perfectly honest, fair and a square and high-minded gentleman," Sims said.

"But any man who is intensely anti-British or anti-French will always be held by those sentiments."

Senator Pittman attempted to show Sims had given to the press his letter January 7, which contained a sensational charge against the Navy Department. Sims admitted that the contents of his letters might have leaked out through the Navy Department but denied any connection with the alleged leak.

Pittman Asks Query

"Don't you think it was improper to disclose sacred secrets as you did in your letters," Pittman asked.

"Not when the interests of our country is at stake," Sims retorted hotly.

"We naval officers made up our minds to one thing—that we would never go into another war like we went into this."

PLAN MANAGER RULE

SALINAS, Cal., Mar. 22.—The city manager form of government for Salinas was to be considered at a special meeting of the city council tonight.

### Quell 'Red' Menace Or No More Food, U. S. Fiat to Berlin

PARIS, March 22.—That the United States may use the "whip" it holds over Germany—the "whip" consisting of a threat to cut off food supplies unless the tide of Bolshevism halts—was indicated here today.

A dispatch from Berlin stated that the American mission at the German capital has presented Premier Bauer with a communication declaring the United States cannot furnish any more food to Germany if a Soviet government is established.

### PLAN FUNERAL FOR GIRL DEAD IN ACCIDENT

Reaching from a bathtub full of water to turn off an electric heater, Miss Mary Ann Melchior, 24 years old, was electrocuted at 2:30 Saturday afternoon at the family home, 758 Bungalow Court, San Bernardino.

Miss Melchior was quite well known in Santa Ana, where she lived for a year with her sister, Mrs. Henry Nau, now of San Bernardino. Miss Melchior was found dead by her sister, Miss Elizabeth Melchior, who had received no response to a call. It is believed that Miss Melchior died instantly, probably five minutes before she was found dead. No one in the house heard any outcry.

When her sister entered the room the electric current was still running through Miss Melchior's body. Her hand was still tightly held against the heater. Dr. F. X. Feisel was hurriedly summoned, but the young woman could not be revived.

The bathroom is equipped with a ceiling light, and to connect up the heater the light bulb had been removed and the heater cord attached. The heater was placed on a chair, and Miss Melchior either apparently intended to turn it off or turn the heater so the heat would not play against her, the room probably having become too warm.

Miss Melchior was born April 29, 1896, at Burlington, Iowa. She had lived in San Bernardino for a year and two months. She was a faithful member of the Catholic church and a member of the Young Ladies' Society and of the choir. Many friends in Santa Ana and Tustin will learn with sorrow of her death.

R. C. Bell, electrical expert of San Bernardino, who inspected the scene of the tragedy, last night issued the warning:

"Under no circumstances should people take hold of an electric fixture while in a bathtub. It is fatal should the fixture be defective in any way. The bathtub and the water in it forms a complete circuit with the electric current."

Miss Melchior was the daughter of Mrs. Rose Melchior and a sister of Mrs. Henry Nau, John Melchior, Miss Mildred Melchior and Miss Elizabeth Melchior of San Bernardino, and Jacob Melchior of Colton.

### SECRETS OF I. W. W. ARE REVEALED

#### Accused In Syndicalism Case Testifies at Angel City

LOS ANGELES, Mar. 22.—John Dymond, said to be a former I. W. W. "delegate," testified today in the criminal syndicalism trial of Nathan Steinberg in Superior Judge Willis' court.

Dymond told of measures taken by the I. W. W. to intimidate workers who declined to join the organization.

On one occasion, he said, concentrated lye was poured into a man's ears because of his unwillingness to join the I. W. W. This is said to have occurred in Visalia.

The ultimate objective of the I. W. W.

Above, dismantling cannon at Essen, preparatory to using the metal for automobile making. Below, Major General Von Luttwitz, one of the resigned counter-revolutionary leaders, reviewing German soldiers. These pictures were taken prior to the breaking out of the German revolt.

### W. WAS TO ORGANIZE ALL WORKERS UNTIL THEY WERE SUFFICIENTLY POWERFUL TO SEIZE THE INDUSTRIES, DYMOND SAID.

W. was to organize all workers until they were sufficiently powerful to seize the industries, Dymond said.

MISS FRANCISCO MAR. 22.—Trial of William G. Grant and Fernando Samozza, charged with looting the National Bank of Santa Rosa, is scheduled to commence in the federal court here today.

A continuance of at least several weeks is probable, however, Assistant U. S. District Attorney Benjamin S. Gels announced.

In an accident recently Crittendon Thornton, counsel for Samozza, suffered a fractured hip. Today, it is expected, a certificate will be produced in court, signed by the lawyer's physician, setting forth that he will not be able to appear in court for several weeks. The cases will not be called again until Thornton is able to appear, it is believed.

Grant was first assistant cashier of the now defunct bank. He and Harold K. Loughery, second assistant cashier, were indicted in October, 1918, with Frank A. Brush, the cashier, for embezzling \$204,000 of the institution's funds.

Grant and Loughery have pleaded guilty on the embezzlement charges. Samozza and Grant face trial on charges of taking funds from the bank to invest in a private enterprise.

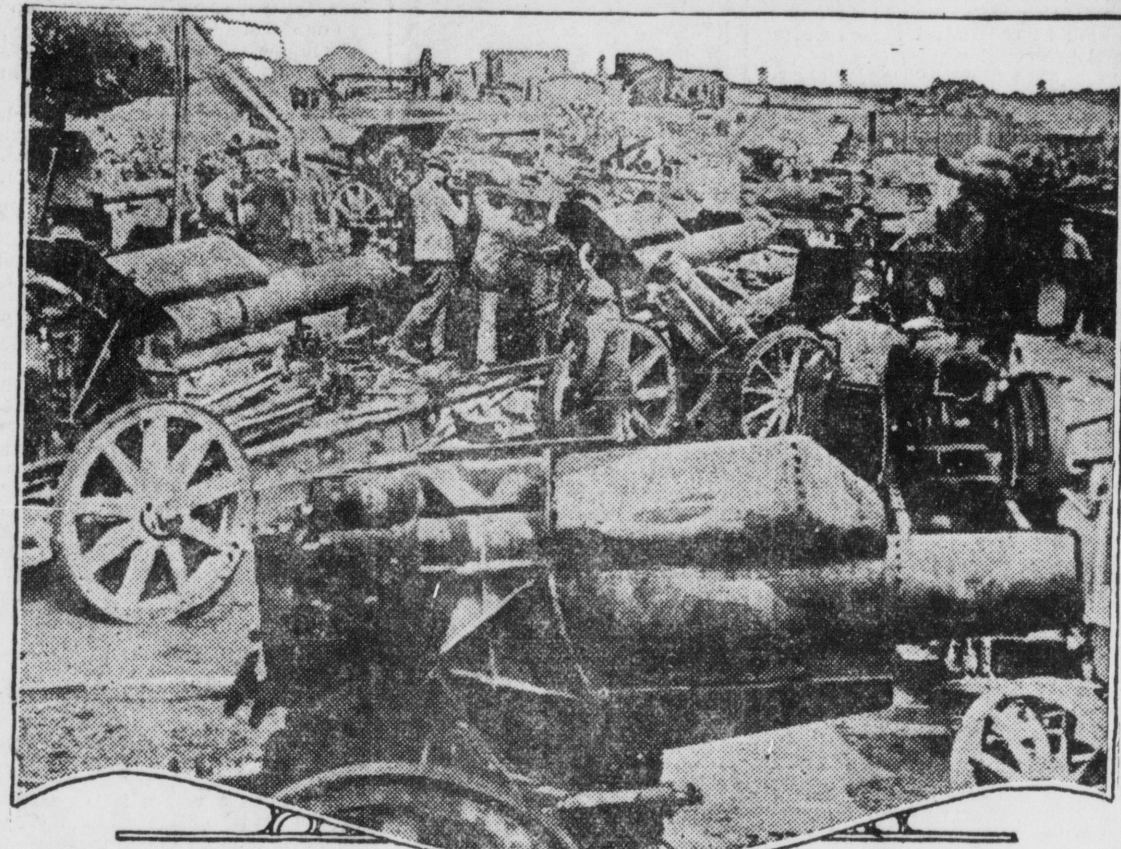

Loughery will not be sentenced until the trial of Samozza and Grant has been concluded.

### BAY CITY SHIP YARD STRIKE PARLEY DUE

SAN FRANCISCO, March 22.—In an attempt to effect an amicable settlement of the strike of the shipyard and metal trades workers, a meeting was to be held here today by the executive council of the metal trades department of the American Federation of Labor.

Just what course would be pursued had not been announced, but it was believed an effort would be made to persuade the employers to resume the relations maintained with the Bay Cities Metal Trades council before the strike which began October 1, 1919.

No proposition will be considered, it is understood, which does not recognize the right of the workers to organize and bargain collectively through their union representatives.

Above, dismantling cannon at Essen, preparatory to using the metal for automobile making. Below, Major General Von Luttwitz, one of the resigned counter-revolutionary leaders, reviewing German soldiers. These pictures were taken prior to the breaking out of the German revolt.

### SUFFRAGE LAW BEFORE SOLONS IN WASHINGTON

OLYMPIA, Wash., Mar. 22. The special suffrage session of the Washington legislature convened at 12 o'clock, noon, today. Following organizing of the Senate and House the two bodies met in joint session in the House chambers and heard Governor Hart's message. The legislature is expected quickly to ratify the amendment. When two more states have ratified the amendment the women of the nation will be able to vote. The legislature of Delaware also met today, but suffrage leaders are pessimistic regarding the chances of suffrage in that state.

OLYMPIA, Wash., Mar. 22.—The Washington legislature here today was expected to ratify the federal woman suffrage amendment, giving the amendment the necessary 36th vote.

No opposition was anticipated and a unanimous vote in favor of the measure was probable.

Governor Louis F. Hart called the special session for today.

Other business which was to be considered, in addition to the suffrage amendment, was a method of providing funds for the University of Washington, the Washington State College and the three state normal schools.

Facing big deficits, the five educational institutions will be forced to close their doors unless the legislature comes to their aid.

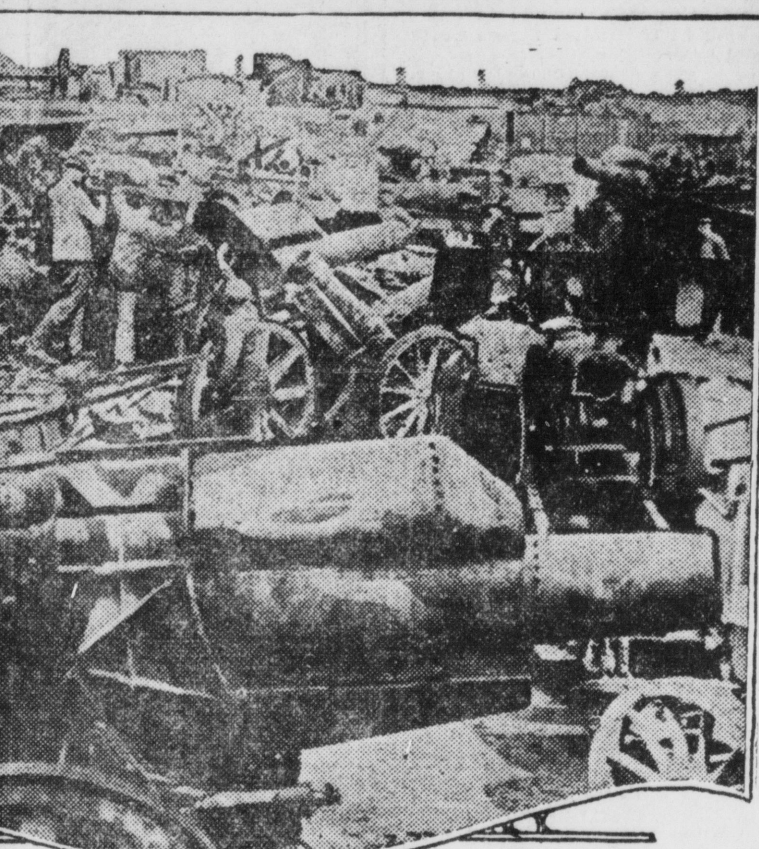

Washington State College is now confronted with a shortage of \$450,000, the state university \$300,000 and the normal schools are hopelessly in arrears.

The deficits are the result of the increased cost of administration and the advanced salaries which recently were granted the instructors.

Deliberations of the lawmakers, during their extraordinary session will not be restricted to the two matters specified in the governor's call, which mentioned "such other matters as the legislature may deem necessary."

The resolution calling for ratification of the amendment to the constitution was to be prepared before the session began, by a joint committee of the senate and the house.

## Work of Dismantling Big Guns at Essen Is Halted

Jesus Barrales, 15 years of age, of Westminster, is in the Seaside Hospital at Long Beach today suffering from a broken left leg and two broken ribs, the result of having been run down yesterday afternoon about a mile west of Westminster by a machine driven by R. F. V. Smythe of Long Beach.

According to the report of the accident received today by Sheriff Jackson from the Long Beach police department, the driver of the machine is not held to blame for the accident. The Barrales had said to have run from behind one machine directly in the path of Mr. Smythe's car. The accident occurred while Smythe was driving in the direction of Seal Beach.

Barrales was struck by the front left fender of the car and thrown directly in the path of the machine, both wheels on the left side of the car passing over his body. Smythe picked the lad up and rushed him to the Seaside Hospital in Long Beach. The boy was reported as resting easily today.

SIX MEN NEAR DEATH  
AS AUTO TURTLES

Six San Diego men today are congratulating themselves that they are among the living, following an accident at 4 o'clock yesterday morning, in which they rolled over twice and landed bottom side up at Irvine.

None was seriously hurt. Harry Cummins, the driver, and Fred Sedoras, one of the passengers, were sent to the hospital, the former going to the Santa Ana and the latter to the county. Cummins is suffering from a severely wounded back, but was expected to leave the hospital this afternoon. Sedoras left the county hospital a few hours after being taken there. All the men involved in the accident reside in San Diego.

The men are said to be stage drivers, their routes centering at San Diego. They left the southern city early yesterday morning to attend the auto races in Los Angeles. The accident is said to have been due to the fact that the driver was unfamiliar with the road.

Bowling along at a rapid clip the car came upon the turn at Irvine station before he realized that the road made an abrupt turn. He attempted to negotiate the turn and his car rolled over on its side twice. Cummins and Sedoras were caught under the wreck, the other men being thrown clear. All were more or less bruised, but the hurts of the four others did not require the attention of a physician.

The machine was badly wrecked and was brought in to Santa Ana for repairs.

### NOTED SANTA MONICA WHARF TO BE RAZED

SANTA MONICA, Mar. 22.—Steps looking to the razing of the famous Long Wharf, the longest of its kind on the coast, were being taken here today, following the receipt of orders from the Railroad Commission that the structure be dismantled. R. C. Gillis, the man who bought the wharf, intends by razing the structure to wipe out the reason for the existence of the Santa Monica Japanese fishing village.

### JAIL BEACH AUTOIST UNDER NAME LAW

LONG BEACH, Mar. 22.—William O'Neil, prominent business man and autoist of this city, is under \$200 bail today following his arrest on a charge of failing and refusing to give his name to the owner of an automobile said to have been struck by O'Neil's machine. Dr. Roy W. Broadhurst's machine was badly damaged. This is one of the first arrests to be made in Southern California under that section of the new automobile law, which makes it compulsory on motorists to give their name and address in case of an accident.

### DEAN SLAYING CASE TRIAL IS RESUMED

SAN LUIS OBISPO, Mar. 22.—With eleven prospective jurors in the box and with a fourth venire of twenty-five persons in court, the trial of Mrs. Myrtle Dean, charged with the murder of her husband, was scheduled to be resumed here today.

## BERLIN MACHINE GUNS READY TO MOW DOWN GOVERNMENT'S FOES

LONDON, March 22.—With dispatches asserting that machine guns have been placed at regular areas throughout Berlin and that holes have been knocked in government buildings for the erection of machine gun emplacements, advices received here today indicated the condition in Germany becoming quieter.

The government has re-established its authority at Kiel and Leipzig, dispatches said, and the attorney general has started proceedings against Dr. Von Kapp and General Baron Von Luttwitz, the leaders of the insurrection.

An official Berlin wireless gave these terms as the agreement between labor unions and the government for "falling off the general strike."

Strike Pact Terms

A new cabinet will be formed with the co-operation of the labor unions. Officials of the Von Kapp insurrection will be punished.

Reorganization of the administration through appointment of republican officials.

Socialization of industry, including nationalization of mines and the potash industry.

Stronger measures to conserve and increase the supply of foodstuffs, prosecution of illicit traders and new agrarian measures.

Reorganization of the Reichswehr under leadership of republican officers with special recognition of the labor unions.

Removal of all known reactionaries from the government.

Berlin Excited

Rumors that a communist army was marching on Berlin caused great excitement in the German capital yesterday, a dispatch said. The inner-city was fenced with double barbed wire entanglements.

Machine guns have been posted throughout Berlin at regular intervals, dispatches said. Government buildings have been prepared for the erection of machine gun emplacements.

One dispatch said that radicals in the strike movement had issued a manifesto, declaring the workers will remain out until they obtain complete socialism. The independent socialists, this dispatch said, demanded disbandment of all military police and creation of a revolutionary defense corps, abolition of the state of siege and immediate nationalization of mines.

EBERT CABINET MEETS TO  
CONSIDER PLANS

BERLIN, Mar. 21.—(Night)—The Ebert cabinet met here late today to consider the situation brought about by Spartan outbreaks throughout Germany.

President Ebert called his ministers in session after he reached the city at 11 a. m. For the present, it was understood, Gustav Noske will retain his position as minister of defense.

Government officials confidently predicted a return to normal conditions, despite the fact the general strike is still partly effective. They believe a majority of the workers will return to their posts tomorrow.

The independent socialists, it was understood, demand additional concessions over those granted by the government Saturday.

Berlin was beginning to assume a normal aspect today. Radicals were electing revolutionary councils. These councils tomorrow will vote on the labor union's proposition to call off the general strike.

Baltic Troops Go

All Baltic troops have withdrawn from Berlin, according to officials of the Reichswehr.

There was a small fight in the Friedrichstrasse today when a truckload of Reichswehr mistook some of their comrades in the trenches for Spartans.

Fourteen special policemen were killed in a fight in Meabit, a suburb of Berlin, late yesterday. It was learned today. They attempted to disperse a meeting of radical workers.

Government officials said that martial law has been proclaimed in Leipzig, where troops occupied the city after violent fighting with the radicals.

Hundreds of persons were reported killed. Some estimates placed the dead in the thousands, officials said an accurate estimate was impossible.

Regular troops came to the aid of volunteers and enabled the government forces to gain control of the city, where fighting has been incessant for several days.

"Reds" Still Active

Radical workers were still in control of the Saxon towns of Gera, Plauen, Auerbach and Borna.

The remaining members of the Ebert government left Stuttgart Saturday night for Berlin on a special train guarded by soldiers armed with machine guns.

## FINAL BULLETINS

25 CARS ORANGES ARE SOLD.

NEW YORK, March 22.—Twenty-five cars of oranges, three cars of lemons, sold today. Orange market steady. Averages ranged from \$3.46 to \$6.72. Highest price 35 boxes Alta Cresta \$7.75. Lemons steady. Averages ranged from \$2.55 to \$3.64. Weather clear. 8 a. m. temperature, 30.

STEPHENS INVITES NAVAL MEN.

SACRAMENTO, March 22.—Gov. Stephens invited all naval reserve men to be special guests of the men-of-war in the ports of San Francisco, San Pedro and San Diego on March 27 in a proclamation issued here today. The Governor's invitation was issued at the request of the commandant of the Twelfth Naval District.

SENATOR JOHNSON WIRES CREMINS.

SACRAMENTO, March 22.—A telegram was received today from Senator Hiram Johnson by J. M. Cremins, election expert of the Secretary of State's office, indorsing the delegates filed in his report several days ago. This places Johnson on record as the first qualifying Presidential candidate on the California ballot.

BISBEE TRIAL POSTPONED.

TOMBSTONE, Ariz., March 22.—Failure of Judge Samuel Pattee to arrive today after having spent the week-end in Tucson caused another postponement of the Bisbee deportation trial. Court adjourned Wednesday afternoon.

## NEW U. C. PRESIDENT LAUDED BY BARROWS

BERKELEY, Cal., Mar. 22.—In an address to delegates here to attend the inauguration of David Prescott Barrows, as president of the University of California, Dean Merriam said. The first stage, he said, was that of "individuality, distinctly local in origin." The second was described as "a stage distinguished by a closer relationship to American ideals of education, upon which there have been built characteristics which are generally American, but specifically Californian."

Eighty delegates representing various colleges and universities of this country and other nations, were the guests of honor this afternoon, the inauguration of Barrows tomorrow will mark the opening of the third stage in the development of the university, Dean Merriam said.

Barrows, as president of the University of California, Dean John Merriam said, "is a man distinguished as a Californian and an American, but whose field of active interest in science, in education, in politics and in war has related itself especially to the problems of the Pacific in the wider sense."

The inauguration of Barrows tomorrow will mark the opening of

## Free Music for Sharp Eyes and Alert Minds

Today on page six of the Register you will find a unique and interesting feature—The Register's Business Guide. Every reader will be interested in the music which is used in connection with the contest feature and which will be given away to the first forty correct answers each week. All you have to do is to find the letters missing from the various advertisements on the page. This week the letters will spell the name "Olivari."

Neatness, originality, correctness and order of receipt of the answers are the only requisites necessary to secure a selection of popular sheet music, free.

This Guide will be published each week in the Register and music will be given to the successful contestants after every publication.

We know that careful perusal of the advertisements on this page will be a diversion from which you will glean profitable information regarding Santa Ana business firms. And for the skill in preparing your answer the music will be a reward and will be well worth having.

## "Passing of the Oklahoma Outlaws" At the Yost Theatre Tomorrow

## SAYS CARPENTIER TO MAKE \$500,000

BY HENRY L. FARRELL  
(United Press Staff Correspondent)  
NEW YORK, Mar. 22.—Georges Carpentier, soldier, fighter, wooer and society man all in the superlative degree, will see and hear a lot of nice things while he is in America. He was expected to arrive today.

Tex Rickard, with the key to all the nooks and corners of Broadway, is the official entertainment committee and volunteering to aid him in his pleasant task are every Frenchman and every French society in New York.

Among the nicest things that the Paris gallant will see will be bundles of which he will soon learn to know as "kale." He will hear the single coin rolling in at \$1,000 a day or better.

If he has his little argument with Jack Dempsey before he returns to France, Carpentier stands to make his visit in the United States worth a cool half million.

He is sure of \$150,000. By showing himself before a movie camera a small part of a day for six weeks, the French idol will pick up close to \$100,000 as a straight slice and will cut in for a share of the foreign royalties. His vaudeville contract calls for seventy nights at \$1,000 a night.

He may further bulge the sides of his wallet by accommodating Dummborg, Paddy Mullins and the managers of some others of the smaller fry who have been offering him tempting purses to meet Battling Levinsky, Mike O'Dowd, et al.

## MISS KATHERINE HUFF IS HONOREE OF SHOWER

ORANGE, Mar. 22.—A very enjoyable miscellaneous shower was given by Miss Esther Neville at the home of her sister, Mrs. Carl Thomas of South Lemon street, in honor of Miss Katherine Huff. The house was decorated with beautiful flowers and a guessing game consisting of 20 questions whose answers were to be obtained from the word "shamrock" caused much amusement and required some brain exercise.

Later in the evening, little Esther Hazel Thomas came upon the scene, hauling her little wagon loaded with gifts for Miss Huff. There were glass baking dishes, aluminum ware, hand painted china and various other lovely presents. The dining table had as a centerpiece, a stately bouquet of pink carnations and the refreshments were pink ice cream with pink cake and a white cake. Those present were: Lillian Thompson, Lola Robinson, Emma Franzen, Stella Ditchey, Martha Ehlen, Gretchen Walther, Goldie Norden, Mrs. Carl Sterrett, Mrs. Rex Parks, Mrs. Byron Stalker, Marie Underwood, Gladys Bush, Katherine Huff, Nora Eastham, Ethel Hillyard and Esther Neville. Ella Atherton was represented by a present.

## Illinois Man Feels Many Years Younger Since Taking Tanlac

CHARLES STENSTROM,

Well Known Peoria, Ill., Contractor  
"I feel thirty years younger since I got hold of Tanlac and if it was necessary I could handle a shovel and turn as much dirt as any of my men," said Charles Stenstrom, the well known concrete and excavating contractor, living at 607 Fishgate street, Peoria, Ill.

"For thirty years I have suffered all the misery that goes with stomach trouble, rheumatism, and ordered kidneys, and when I began taking Tanlac I was so bad off I was about to retire from business. My stomach was so badly upset that it nearly laid me up altogether, and after every meal I took cramping spells that sometimes were so bad I couldn't leave the house, for I was afraid I could not get back. I bloated up so with gas that I could not get a long breath. My legs pained me almost every minute of the day and when the weather was damp my arms hurt me so much it was agony for me to bend them. My kidneys were so badly out of order that I had pains all through my back and at night I was in such misery I could hardly sleep at all. Every morning my back was so stiff it was hard for me to get out of bed and during the day I couldn't think of doing my work."

"Things are different now, as Tanlac has made a wonderful change in my condition. Everything I eat agrees with me perfectly. The rheumatism has almost disappeared and the pains and stiffness in my back have all gone. I sleep sound every night and I get up in the mornings feeling fine and ready for breakfast. I have given up all idea of retiring from business, as Tanlac has given me new life and strength and I am now enjoying better health than I have for many years."

Tanlac is sold in Santa Ana by Rowley Drug Co. and the leading druggists in every town.

## WILL SUPERVISE AUDIT INCOME TAX REPORTS

That Elmer B. Burns, deputy income tax collector for the Orange county district, is to have full supervision of the audit of 1919 income returns in the office of Collector John P. Carter in Los Angeles was disclosed in a letter received by Burns, confirming the report that he would be called into the Los Angeles office. He will go to Los Angeles Tuesday and will be in touch with the local office for the next ten days, because he will come home evenings.

It probably will require ninety days to complete the audit, with five or six men engaged at the work. Selection of Burns for the supervision of the work indicates that he stands well with the collector.

It is estimated that there are 50,000 reports on the 1040-A forms, which is for incomes less than \$5,000, the number being about 8000 in excess of the number for 1918. The number of reports for incomes above \$5,000 cannot be estimated at this time. They are two or three times more than were filed for the previous year.

Burns urges that Orange county residents commence to keep books now in preparation for the 1920 reports to be made in the early months of 1921. Parties selling real estate should get in touch with the income tax deputy before the sale is made or immediately after, so as to determine the amount of profit, if there is profit, upon which the tax should be made.

Notation of the amount at the time will make it easier to report for the year on next year's returns. If the amount of the profit, together with legitimate charges against the cash return, is noted at the time it will save the individual time, trouble and money. He will not have to depend on his memory for items that are deductible and which often are overlooked when the report is made at the end of the year.

With such a record it is possible for the individual to make up his report as soon as the year ends and to file it at once instead of waiting for the last moment.

"During the recent rush, many

came to us for advice on their returns, particularly where sales had been made," said Burns. "Many items of expense had slipped their memory and there were many details that they had forgotten, causing themselves financial loss and taking up time of the collector that should be devoted to other matters."

"Returns made up month by month would materially aid in making out the reports after the year has passed. A great many people have an erroneous impression as to the amount of tax they have to pay on profits through the sale of property. A deputy will be available in this city most all the time and it would be well for parties contemplating the sale of property to get in touch with the deputy."

While a ranch owner's labor and time put in on his own property is not a legitimate deduction in an annual income report, it is a legitimate deduction in estimating the profits of a sale, particularly where the ranch has been developed entirely by the owner. There are many charges that can be made against the profit and the deputy will be glad at any time to advise on the subject.

## ITALIAN CHAMBER'S DIGNITY ASSAILED

ROME, Mar. 22.—The entry of 208 Socialists into the Italian Chamber of Deputies has altered that senate place's character, and the tall, well-uniformed janitors and attendants rub their eyes and wonder what has happened.

Several Socialist members have spent more than one night on the couches in the writing room. They could find no place to go in the town, they said, and looked upon the Chamber as their home. Despite the protests of attendants they turned the writing room into a dormitory. And they expressed approval at the way the despised "middle class deputies" had the building heated.

## DON'T HESITATE

(Mr.) Ivie Stein, P. K. F.

## Don't be embarrassed by disfiguring blemishes.

If you are unable to really enjoy the society of others because of the fear that that wretched skin eruption on your shoulder will begin to itch, or that your scarf will slip and expose the disfiguring rash you had tried so hard to conceal, try Resinol Ointment.

There is no need of enduring such discomfort when Resinol Ointment usually relieves itching promptly and makes the skin clear and healthy again. When aided by Resinol Soap it is even more effective.

RESINOL SHAVING STICK tends to prevent irritation. All doctors sell the Resinol products.

# Resinol

## FRENCH PROFITEERS NOW PAYING PENALTY

PARIS, Mar. 22.—A few of the many profiteers are meeting their deserts. The manager for a wholesale dealer in butter and eggs was sentenced to a year's imprisonment and to pay a fine of 1,000 francs, (\$200 normally). He had sold eggs for 715 and 720 francs a thousand instead of at the normal price, 695 francs. The wholesale dealer was fined 2,000 francs for complicity.

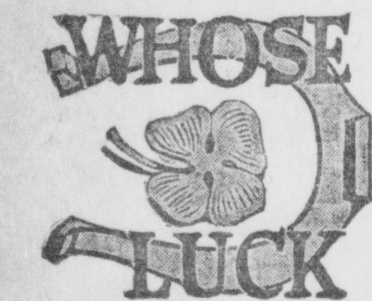

Other profiteers in foodstuffs have been imprisoned until their cases can come before the courts. Not only does the new law deal with profiteers in provisions, for a salesman at Chalons-sur-Saone has been sentenced to six months' imprisonment and 5,000 francs fine for speculation in boots and shoes.

## CLOTHES LINE RENT IS ASKED IN JERSEY

NEW YORK, Mar. 22.—According to complaints received recently by John F. Gannon, Director of Revenue and Finance of Jersey City, who is conducting a rent profiteering investigation there, residents of No. 138 Monticello avenue must pay to Harry Dranow, owner of the house, \$1.50 a month for the privilege of using the clothes line in the yard. Mr. Gannon expressed his indignation at the procedure in a letter he sent to Dranow. Dranow was out of town and could not be reached to tell his version of the story. Incidentally, the poles to which the lines are attached are owned by the New York Telephone Company.

## CO-OPERATIVE STILL IS RUN BY FARMERS

WAYNE, W. Va., Mar. 22.—Farmers in parts of this county are making whiskey on the co-operative plan with a movable still, much the same as sorghum molasses is made. A moonshine party consisting of about seven moved the still from place to place, putting it up for a run for any one who lets it be known that they have a supply of mash ready. Half of the run goes to the makers, while the other half goes to the farmer. Federal agents are busy locating the movable still.

## HELP FOR MOTHER

A mother whose strength is over-wrought or who is thin, pale, over-tired or nervous, should find renewed energy in every drop of

## SCOTT'S EMULSION

## Argonne Fighter Is Walking Without Aid of a Cane

What shrapnel, explosive bullet and gas failed to do when they touched him in France, flu also failed to do when it touched him in San Francisco, and Jacob M. Fisher is home on furlough for a couple of weeks.

What's more, he has shed his walking-stick and he can swing his Argonne leg in a waltz.

Fisher went into the California School of Fine Arts in San Francisco last October under the direction of the U. S. Vocational Training Board for soldiers.

He was doing fine until the flu took a whack at him a month ago. He had gained 15 pounds and had been rapidly advanced to a class of fifth-year students, and the government masseurs had worked his leg over until it began to promise that it was going to be nearly as good as it was before a German explosive bullet cracked him below the knee. The flu got his fifteen pounds, and didn't improve the difficulties left by gas. The doctors told him he should go to a hospital or home for a rest. He knew them both, so he came home.

## BAD BREATH

**Dr. Edwards' Olive Tablets Get at the Cause and Remove It!**

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

## "—Wonderful, My Dear—Where Did You Get It?"

—Art in home furnishing, just as in painting or any other decorative work, consists in breaking the monotony here and there with a bit of unique personality. Straight lines should be avoided in the hanging of pictures and draperies to get the best effect. The coloring in floor coverings is important, but most of all the atmosphere of good taste is a result of correct furniture selections.

—A unique table for the hall, an art lamp for the library, a footstool for the cozy corner—these and others are the little touches that make the difference between an ordinary household and one that brings out gratifying remarks from your friends.

—Usually, when a compliment is passed the answer is—"Why, that came from Spurgeon's."

—You'll want some of the wonderful things we are displaying to brighten up the home this spring. Just come in and look around. It will be no trouble to show you and we'll take great care to see that you get your money's worth.

## WILL SPEAK ON BEAUTIES OF COAST LINE

Preservation of the Orange county coast line will be the subject of an address to be delivered at the annual meeting of the Associated Chambers of Commerce to be held at James' on Wednesday evening of next week. The address will be by C. A. Fille (pronounced Fy) who is an artist of considerable note and who makes a specialty of mountain painting. His home is in Brooklyn, N. Y., and he is stopping temporarily at Laguna.

He has engaged in a number of campaigns for the preservation of natural scenery and parks and he has become very much impressed with the beauties of the ocean shore line as it pertains to Orange county.

He will tell of the beauties of the coast as he sees them, and as other artists admire them, and will urge that steps be taken to preserve them as they are today and to prevent the erection of cottages along the coast that will interfere with the view of parties passing over the coast boulevard to be constructed by the state under the last bond issue.

Fille has assisted in campaigns for preservation of the Rocky Mountain National Park, formerly known as Estes Park; which resulted in the making of a national park out of Glacier Park, and more recently aided in the campaign for preservation of wild game and fish along the northern shore line of the Pacific.

## VENTURAN INVENTS NEW WALNUT MACHINE

VENTURA, March 22.—P. C. Marble, manager of the Goleta walnut house, has invented a machine which cracks the nuts and separates the kernels from the shells. His force of workmen has been reduced more than half.

## Marriage Licenses

James C. Hopkins, 43, and Dorothy C. Atchley, 38, both of Los Angeles. William H. Sanders, 27, and Mary G. Seagoe, 25, both of Los Angeles. Roy Willey, 25, and Myrtle Tinsley, 23, both of Los Angeles. James F. Holland, 32, of Whittier, and Clara C. Sanders, 33, of Los Angeles. Daniel E. Seidlitz, 25, and Clara D. Black, 26, both of Anaheim.

## Poinsettia Cuttings To Be Given Away At the Courthouse

Poinsettia cuttings are to be given away at the courthouse tomorrow. If it rains, there will be a postponement for a day.

George Benedict, gardner at the courthouse, is going to cut back the big poinsettias, and while he is doing that he will make the cuttings, and those who desire them to set in their yards may have them. First come, first served. Last year at the annual trimming all of the cuttings were gone by 10 o'clock.

The courthouse poinsettias are of unusually fine quality.

## FLEET TO LEAVE SOON ON CRUISE TO HAWAII

SAN DIEGO, March 22.—Thirty-two destroyers, one armored cruiser, one scout cruiser and two tenders will comprise the "Centennial Fleet" that will leave San Diego for Hawaii at 9 o'clock next Thursday morning. Eight of the destroyers probably will not be seen again in local waters for many years, for after participating in the Hawaiian Missions Centennial celebration, April 11 to 19, they will proceed from Honolulu to their new station in the Philippines.

The armored cruiser Brooklyn, flagship of Rear Admiral Henry Wiley, Pacific destroyer squadron commander, will head the Centennial fleet. This will be the largest number of destroyers ever sent on a cruise in Pacific waters.

The fleet will comprise, in addition to the flagship Brooklyn, the scout cruiser Birmingham, tenders Melville and Cuyama, and the destroyers Aaron Ward, Aulick, Turner, McCall, Chauncey, Fuller, Evans, Woolsey, Badger, Twigg, Babbitt, Phillip, Howard, Stansbury, Kennison, Claxton, Hamilton, Sproston, Doyen, Renshaw, O'Bannon, Hogan, Tingey, Swasey, Jose Rizal, Hart, Lee, Tarbell Upshur, Greer, Elliott and Yarnell. The last named eight destroyers are to go to the Philippines.

## CHARGES VIOLATIONS OF MOTOR LIGHT LAW

Complaints were being prepared today in the office of District Attorney L. A. West against W. L. Swarthout, 201 South Birch street, this city, and M. F. Childers, both of Los Angeles, for violation of that part of the motor vehicle act pertaining to lights. Swarthout was arrested Saturday night by Motorcop Ballard for driving between Anaheim and Santa Ana without a tail light. Shortly afterwards Ballard arrested the latter pair for having adjustable spotlights on their cars.

## TURKEYS AND POLICE OXNARD ROW FIGURES

OXNARD, Mar. 22.—This city is today looking for two men capable of holding down jobs as city policemen and the two who formerly held those positions are looking for work in other lines of endeavor because of the disappearance here some time early Thursday morning of ten fat turkeys, the remnants of a St. Patrick's Day banquet. The turkeys were left in the banquet hall after the festivities. The next morning they were missing and Patrolmen Fred M. Smith and Walter Van Buskirk were put on the trail of the birds. They failed to find any trace of the missing turkeys. Then City Marshal Murray got on the job. Investigation proved that but two keys to the hall where the banquet was held were in existence. The secretary of the Knights of Columbus owned one and Patrolman Smith the other. The turkeys were found at the homes of the two officers.

## TRUCK DISAPPEARANCE INVOLVED IN MYSTERY

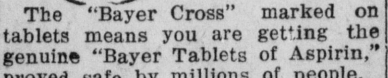

Just how a delivery truck got into the garage of L. G. Swales on East Fifth street is a mystery that today is attempting to be solved by the Reid Motor Company, Swales himself and the police. The disappearance of the truck from the agency Saturday kicked up quite a commotion in police circles and notice was sent by City Marshal Jernigan to other officers in the southland to keep their eye peeled for such a truck.

Swales had partly negotiated for the truck, but it seems that nothing definite had been settled, hence when the Reid agency found the truck missing it immediately came to the conclusion that it had been stolen. It was found in the Swales garage this morning, but according to the police none of the parties involved in the transaction know how it got there.

## NAME 'BAYER' MEANS ASPIRIN IS GENUINE

Prescribed by Physicians for Over 18 Years.

The "Bayer Cross" marked on tablets means you are getting the genuine "Bayer Tablets of Aspirin," proved safe by millions of people. In the Bayer package are proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally. Handy tin boxes of 12 tablets cost only a few cents. Druggists also sell larger Bayer packages. Aspirin is the trade mark of Bayer Manufacturing of Monocetacidester of Salicylicacid.—Adv.

## CARS CARRYING CITRUS FRUIT BOOST CARD

Significant to Orange county because of the effect it will have on the consumption of oranges and the consequent increase in the demand for them, a novel advertising campaign is now being carried out in New York City. Some time ago arrangements were made to have them displayed in the cars operated by the Manhattan railway and the various lines of the Interborough Rapid Transit Company of New York City, advertising cards.

It is estimated that these transportation lines carry a million people every day, and most of these people at some time during their trip gaze at the advertising cards in the cars.

The contracts will carry this advertising over a period of six months. Four neat card designs, well calculated to make the mouth of the city dweller water, are displayed in the cars. They carry with them a breath of the sunny southland and doubtless they carry back to many, some memories of happy days spent in Southern California.

Aside from the advertising in the street cars there are the great advertising campaigns conducted in the national publications such as the Saturday Evening Post, the Ladies Home Journal, etc. All of these tend to stabilize the market for the fruit and to instill a constant demand by getting a nation into the habit of becoming regular consumers of citrus fruit.

Packing, shipping and growing facilities have been raised to such a science now that there is no fear but that the greatest demand for the fruit can be readily cared for.

## REDS' DEATH THREAT TURNS RUSS ARTIST

LONDON, Mar. 22.—Major Gen. T. Barikoff, a Russian general of high social standing, has come to London to open a studio and make this city his home. He had to leave his native country because the Bolsheviks sought to kill him. Gen. Barikoff is skilful with the brush, and some of his work will be on exhibition in the little art rooms in Duke street. The paintings will have unique interest as the product of a distinguished soldier turned artist through force of circumstances.

## BRAVE DIVER'S WORK ON 'AMERICA' TOLD

NEW YORK, Mar. 22.—"Deep sea Perils of the Diver" was the title of an article published in The World Magazine, which related some of the perilous adventures of Frank Crilley, who during the war had charge of the diving operations at the Navy Diving School. Through a misunderstanding Crilley was represented as being in charge of the salvaging of the U. S. S. America after she sank at pier in Hoboken and was credited with the feat of raising her in six weeks' time. The work of raising the America was in charge of the Merritt and Chapman Derrick and Wrecking Co. and Crilley was only one of seven foremen on the work who helped to carry out the orders given by the company's superintendent. Crilley had under him six men from the Newport Diving School. In fairness to Crilley it should be made plain that he was in no way responsible for the misleading statement.

## U. S. CHEMISTS LEARN HOW TO PRODUCE SOY

NEW YORK, Mar. 22.—Oriental countries have been for years the sole producers of soy sauce, used in practically all meat condiments mixed in this country, but now the United States seems likely to become a rival of China and Japan in the manufacture of this commodity, says Popular Mechanics. Government chemists, after only a year's work, announced recently that a fair quality of soy sauce had been made by them, though the method employed in the Far East requires five years to accomplish the same result. Soy beans, roasted wheat, a mold known as yellow-green aspergillus and brine, are its ingredients.

It is interesting to know that the famous Worcestershire sauce of England was the result of experiments to find a way of making soy sauce. The experimenters failed in their effort, but most gourmets will say they succeeded in producing a great improvement on the original.

## MEXICAN PETROLEUM LEADS STIFF MARKET

NEW YORK, Mar. 22.—The stock market opened strong today. Opening prices were: Mexican Petroleum 135 1/2, up 1 1/2; U. S. Steel 103 1/2, up 1/4; American Locomotive 106, up 5/8; International Paper, 87 1/2, up 1/4.

General Motors made a new high record at 409, up 29 net. It broke to about 359 1/4 when the common securities of the stock exchange ruled that ten shares of temporary certificates shall be a delivery for one share of old common stock. Certificates made an early high at 40.

Chandler made a new record high above 155 and Standard a new high for the year at 110 1/4. Oil stocks took second place. Mexican Petroleum jumped to 202, followed by a 5 point reaction. Pan American made a new high for the year, close to 105.

## COMPETITION BOOSTS PRICE ON HAIR NETS

CHEFOO, China, Mar. 22.—The hair net business here is in a state of chaos owing to complications caused by buyers from Shanghai going directly to the makers in the region of Chingchowfu and thus competing with the firms with which these had contracts. Consequently the price has increased about 300 per cent.

## Spring Underthings

TEDDY BEARS, \$1.25 to \$3.50

—New ones in brocaded half-silk, in pink, with wash satin yoke showing a daintily hand-embroidered motif in silk floss, priced \$3.50.

—Plain pink Batiste of fine quality, Empire style with ribbon tie, and finished at yoke and bottom with dainty linen lace, \$2.50.

—White Batistes and Crepes, some with shaped shoulder and some band top, in a variety of trims, Priced \$1.25 to \$3.50.

## "STEP-INS" WITH CHEMISE TO MATCH

—Two styles in "step-ins" in fine mercerized striped pink Batiste, and brocaded half silk. The former has straight Chemise to match. Priced \$2.00, \$2.75, \$3.50.

## Charming Features in Blouses—

—With the near approach of Easter, you will be interested in our New Blouses, illustrating the charming new features being shown this Season.

—Tricolette Blouses, cut in the new Middy style with butterfly sleeve, beautifully hand-embroidered at the bottom and sleeve in Chenille thread. Shown in Rose and Beige, with brown trim and a touch of blue.

—Tricolette Blouses, in white and flesh pink, Middy style with tie and heavy tassels at the side, short sleeved trimmed in uncut fringe. Exceedingly effective.

—Many other new styles now ready in our Blouse Section, second floor.

## Spring Styles

Looking Forward to Easter

## Lovely Spring Apparel

—Frocks and Coats, Smocks, Blouses, and Skirts—

—All ready for donning on Easter morn when Spring buds forth in all her beauty, recalling the joy of that morning long ago when the Savior's tomb was found empty—for He had risen.

—Or, it may be, you will need a bit of neckwear to complete the costume you have been making, or some fresh, new hosiery, or some well fitting gloves, a handkerchief perfumed with "Garden Fragrance"—

—And you'll find all these things at "Rankin's," where careful selection of style and quality count so much in satisfaction to the customer—for all our Departments are blooming with new Spring merchandise, the choicest of every line.

## Sport Coats Showing Many Attractive Models

—About twenty to thirty new models in Sport Coats have arrived affording now a fine selection for your choosing.

—There are Camel's Hair models in Tan, Tweeds in Heather, Silvertones in Brown, Velours in Blue trimmed in angora, Plaids, and Jerseys.

—The styles are all individual, showing the use of various collars, belts, buttons, pockets, some with full, straight backs. We invite your leisurely inspection of these new garments.

## NEW PLAID SKIRTS

—Rich plaids in Spring colorings, in straight, box pleated, and accordion pleated models, many striking patterns in large plaids as well as those in harmonious blendings in browns, blues, predominating.

—A showing of Cream serge skirts also is ready, in the newer pleatings.

## For Easter

—Real Hand-Made Blouses, made entirely by hand even to the seams, of fine sheer white Batiste, with hand drawn-work fronts, collar, and cuffs. Three styles are shown in all sizes from 34 to 44, long sleeved models with low or high collar. Attractively priced at \$10.00, and \$13.50.

—New Net Blouses, of fine, white net, round neck cut low in front, and short sleeved, the neck and sleeves trimmed in three rows of dainty val. lace. Fine tucks are effectively used. These are very effective over pretty camisoles. Price \$7.50.

## POSSESSION OF STORE EQUIPMENT IS SOUGHT

M. J. Herzler today filed suit in the superior court through Attorney H. G. Ames, of Anaheim, to secure possession of approximately \$2500 worth of general store equipment which he alleges J. C. Ballard of Orange county now holds. The store from which the equipment was taken is located at Carpenteria, Santa Barbara county. The suit is said to be the result of the dissolving of a partnership agreement. Ballard is said to be operating a store some place in the northern end of this county.

The Landlady's Revenge  
The beach was crowded with happy holiday makers, and the minstrels were so funny that some of the roisters almost smiled. "Uncle Eben" came around with the inevitable tambourine, leaving his companions alone in the field to tell stories about boarding house ladies.

Suddenly the black gentleman in search of coppers had his tambourine ruthlessly snatched out of his hand by a stern looking woman, who calmly swept all the money into her pocket.

There, you impudent cork-faced fellow!" she cried, returning the tambourine. "Tell your funny friend who knows so much about landladies that I'm the one he forgot to pay the last time he was here!"

## FOR LUMBAGO

Try Musterole. See How Quickly It Relieves

You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not blister.

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest. Always dependable. 30 and 60c jars; hospital size \$2.50.

## BLACK BASS TO BE ADDED TO BEAR LAKE

SAN BERNARDINO, Mar. 22.—A movement to increase the fishing advantages in the San Bernardino mountain resort region is shaping and the Merchants' Association will soon announce a campaign the object of which is to add black bass to Big Bear lake.

That black bass will wonderfully increase the sport at Big Bear is declared by many fishermen. This fish is a fighter and better to eat than trout, declare the fishermen who will support the Merchants' Association in the movement.

Millions of chubs are now in Big Bear and many fishermen blame the poor fishing of last year to this situation. The big trout get enough food by eating the chubs and when in that condition are not interested in spinners and baits.

The bass if placed in the lake in sufficient numbers will clean the waters of the chubs, declare the fishermen.

To overcome the fact that the bass will destroy little fish, the plan carries the suggestion that the little trout with which the lake is stocked should be placed in the pools protected from the lake and in which they are four or five inches in length, when they are too big to be caught by the bass.

Chub Mystery  
How the chubs happen to be in Big Bear is a disputed point. Some declare that several years ago fishermen used Chubs taken to the valley as bait and threw what they had left into the water after a day's fishing. Others declare that various lakes over the state are now alive with chubs and that they will some day disappear as rapidly as they came.

That bass fishing would greatly increase the sport is the opinion of officers and members of the Merchants' Association.

Malone and the superintendent of hatcheries and others of the commission will be invited.

The commission is now using eggs from the Bear Valley station to supply the leading hatcheries of the state and will oppose any move that might tend to decrease the trout, but that the bass will not interfere with the trout, as many eastern fishermen know, is declared by local nimrods, provided the small trout are protected and not released to care for themselves when only an inch or an inch and a half in length. Without doubt many thousands of little trout are now being eaten by the bigger trout of the lake.

## There's No Picture Like the Picture of Health

The greatest master-piece in the Art Gallery of Life is Nature's "Picture of Health."

It is a marvelous portrayal of the human body at its best. One beholds in its composite detail a true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, strong limbs, steady nerves and firm muscles, fairly vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant with color, illumined with a glow of hope and cheerfulness.

Could Nature have taken you for her model? Suppose you study yourself in the mirror of the present and compare your looks, your feeling and your condition with the general characteristics of this picture of the human body in perfect working order, all parts of which are sound, well organized and disposed, performing their functions freely, naturally. If you fall in any single point of resemblance, you are not the picture of health. It is imperative, then, that you look to a means to rebuild your strength, energy and vigor—to bring your body up to a normal state of efficiency in all of its parts.

The Great General Tonic

Nothing is more efficacious as a restorer of exhausted nerves and physical forces than LYKO, the great general tonic. It tends to renew the worn-out tissues, replenish the blood, create new power and endurance, and revive the spirits of those who are weak, frail, languid and over-taxed. It is a reliable appetizer, a splendid aid to digestion and a functional regulator of the liver, kidneys and bowels. All druggists sell LYKO. Get a bottle TO-DAY and you'll commence to look more like the picture of health.

Sole Manufacturers: LYKO MEDICINE COMPANY  
NEW YORK KANSAS CITY, MO.

### W. H. WOTTON

"Mr. Wotton is dead!" Over and over yesterday afternoon and today has that announcement been sadly, solemnly, sweetly passed from lip to lip in Santa Ana and Orange county. Yes, sweetly, for there could be no bitterness at the willing, patient passing of such a sweet soul as that of the beloved former pastor of the Church of the Messiah (Episcopal) of Santa Ana. Moreover in the passing of the soul to the God it loved and trusted the tired and tortured body was at rest.

That Mr. Wotton's was a heroic soul as well as sweet and saintly, was manifest in his long and patient and uncomplaining suffering. And we have never witnessed a finer, sweeter, more heroic thing than Mr. Wotton's participation in the funeral service of his beloved friend, Mrs. J. S. Rice, a few months ago. It was an act of love and loyalty, duty and devotion seldom surpassed. He literally dragged himself from the brink of the grave and groped his way in physical blindness back to earth, as it were, to lay a wreath of spiritual immortality on the bier of his dear dead friend. It was as though he had lingered here for this said sweet service or had come back from the great beyond to perform this heroic labor of love. And such a beautiful tribute, shot through with the light of the eternal morning, and fragrant with all the flowers of paradise! "Tis true," 'tis certain; man though dead remains.

Part of himself; the immortal mind remains."

Mr. Wotton was a worshipper at the shrine of beauty—beauty of body, mind and spirit—beauty in nature and in all the works of the Creator. How often, O how often in the years of his Santa Ana pastorate did he come to us with some word of appreciation, admonition, suggestion—help. He was always helpful. And always underlying the spirit and motive of his coming there was something beautiful. "Farewell! a word that must be and hath been—

A sound which makes us linger;—yet—farewell!"

### THE LESSON PLAIN

German militarism has failed to come back, but German Bolshevism is an imminent peril. This is the salient fact of the latest attempt at counter-revolution in Germany.

The aristocracy, seeking to regain its old power, was easily put down, but the temporary disturbance it caused opened the way for a proletarian dictatorship. The "Spartanists," as the German Bolshevists call themselves, have gone further this time than they did in their first outbreak. They may actually succeed, now or later, in getting a firm grip on Germany. If so, good-by to the Paris treaty! It will be resistance, active or passive, against the fulfillment of Germany's war obligations. It will be at least a friendly understanding with Lenin and Trotsky, and a possible Russian-German Red league against Western Europe. The world would then be plunged again into uncertainty and confusion. There would be no assurance of peace, justice, order, prosperity.

And for all this threatened peril, what is responsible? Primarily partisan politics and personal animosities in Washington, which have delayed peace month after month, while statesmen quarreled and dabbled and fussed as if the world fire were not still smoldering.

If Washington had ratified the peace treaty and the League of Nations were in effective operation, neither a militarist revolt nor a Bolshevist revolt would have dared raise its head in Germany.

The lesson is so plain that it needs no argument to drive it home.

### EMIGRATION

Ellis Island records show that emigration lately has been somewhat larger than immigration. From the first of January until the middle of March 53,000 persons entered the country, while 61,000 left it. Previously, since the armistice, the two movements had been almost exactly equal.

These figures are considered remarkable because the immigrants are so few in number, and because the emigrants exceed them. Before the war we were having a net immigration of nearly 1,000,000 a year. During the war there was naturally little movement in either direction. Now, with freedom of travel pretty

well restored, it is significant that more people are leaving our country than are coming to it.

The excess is small. If continued for the whole year at the rate established thus far, it would amount to a net loss of only 40,000 or 50,000. The striking thing about it, however, is the mere fact that immigration has sunk to such a low ebb as to permit any emigrant excess whatever. If this phenomenon is not merely seasonal, to be corrected by a return movement in the spring, it will deserve careful attention.

The suggestion that the outward movement is due chiefly to American prohibition is probably not worth serious consideration. The emigrants are said to have gone mainly to Poland and Czechoslovakia. The new freedom and opportunity opened up in those fatherlands would account for that.

If these figures mean anything, do they not mean that even with all the economic prostration of Europe resulting from the war, life in America does not appeal to the masses, either here or abroad, as so very much more desirable than life in Europe?

### H. C. OF BASEBALL

Something really must be done about the high cost of everything, and of some things in particular, before our whole democratic social structure is undermined by the latest menace. It is rumored baseballs and bats have gone up so in price that they are now beyond the reach of the average small boy, and even neighborhood "nines" can scarcely scrape together a collection of funds large enough to supply the teams with the merest essentials for the national game.

It is feared that this will drive baseball off the vacant lots of the town; and it needs no words to point out what a calamity that would be to any normal community. Another worry is that it will make of baseball a class game to be indulged in only by spoiled little boys whose parents have lots of money.

If the cost of bats is going to bring in a caste system among the small boys of the community it will be doing a terrible thing, indeed. But somehow we can't get worried about the youth of America on this score. The unbelievably wealthy lad who can afford a bat or glove or ball can not enjoy his riches without the rest of the gang, and once the game is on, his artificial glories will fade before the greater glories of the boy who is most skillful in swinging that bat.

The Turkish treaty is to be given to the Turks on March 22. And unless some of the terms are changed to the disadvantage of the Turks, there will be an inequitable storm of civilized opinion about that time, all right.

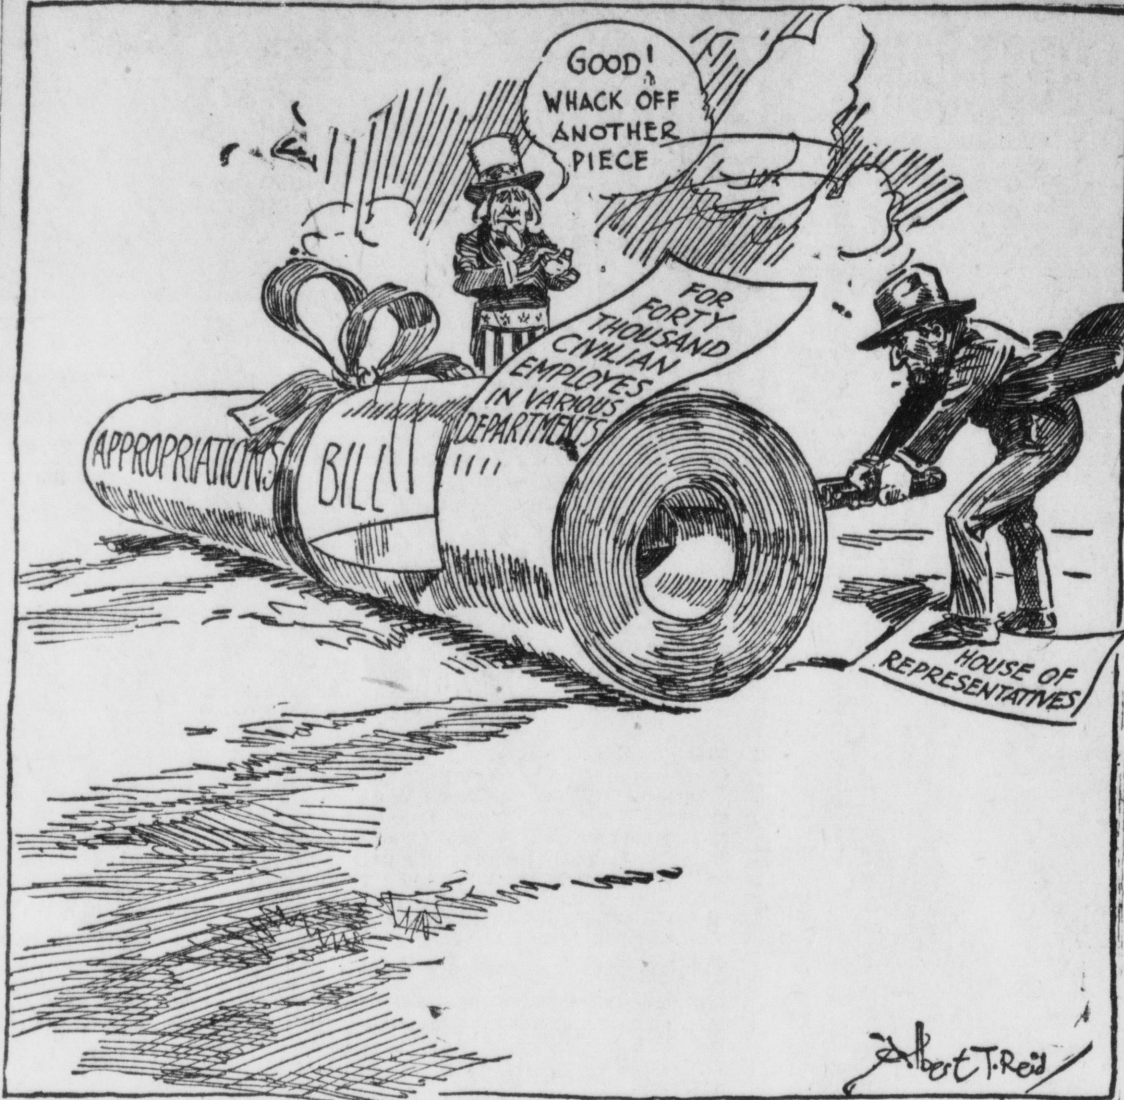

One college graduate makes \$10,000 a year in a tea room. Another receives \$6,000 a year for running the college dining room, more than any professor on the faculty is getting. More money in food for the body than in food for the mind! Here is food for thought.

### No Blue Sky Stocks

The Sacramento Bee calls attention to the fact that if it were not for the "Blue Sky Law," one of the most important of the once derided but now universally praised "Johnson laws," the new oil leasing bill would present magnificent opportunities for swindlers to unload worthless oil stocks on the public of California. With the large amount of land open to leasehold, all sorts of companies will be formed to develop it. If there were no law to prevent, some of these companies would be much more interested in developing the stock market than in developing oil. This is what did happen in the earlier part of the former era of oil development. The only reason it will not happen now is because under this Blue Sky Law, any company seeking to sell stock on the public market in California must first satisfy the Blue Sky Commission. His certificate, to be sure, is no guarantee that the investment will be profitable. In the case of mining companies in experimental territory, such a guarantee is necessarily impossible. There is always a certain amount of doubt or speculation in mining development. The Blue Sky Law does, however, guarantee that there shall be no fraud in these companies. Each company must have the sort of title it claims to have to the land it claims to possess; it must tell the truth about its capitalization and development; it must issue only the permitted proportion of stock for promotion purposes, and it must use the money raised for development in that development instead of distributing it among the promoters. This is a guarantee to every investor that he is making an honest investment and that the truth has been told to him in the printed literature of the company. This is a protection not merely to the public but also to the honest promoters and developers of the resources of the state. It will prevent the orgy of illegitimate speculation which marked the former era of development and which actually hampered the physical development of oil in California. It is one of those "intermediate with business" which business men and Orange county "Johnson fanatics" first proposed them but which business men, in the light of a wider experience now welcome as the best protection to themselves as well as to the public interest.

Mrs. A. E. Fyffe is moving her flower shop at Orange to 132 North Orange street, where the business will be reopened probably by the middle of the week.

## CHOPPING OFF ANOTHER CHUNK

## "For the Good of Santa Ana"

By HORACE FINE of the Register Staff.

It has been much interested in the various suggestions made by respondents in reply to a request from the Register that anyone having an idea as to what is needed in Santa Ana for the betterment of the city, present the same for publication. All points have been well taken. But in my opinion, no correspondent yet has hit on the "big idea." This, perhaps, is due to the fact that few people of the city are interested in what the city council does sufficiently to attend their meetings. They do not know the problems that confront the council at every meeting, and most of the problems have to do with lack of funds. It is an easy matter to stand on the corner and say what should be done by the council, but were the parties who make the criticisms familiar with the inside financial working of the city, they would be less liable to offer the criticisms that are heard frequently on the street.

In my opinion, the "big idea" for the betterment of Santa Ana is to revert to the system of the city making its own assessment and collecting its own taxes. It is true the operation of these offices would cost a little more than it is now costing the city for the service under county assessing and collecting. However, the present system is nothing more than "peny-wise and pound foolish."

The city is saving a few paltry dollars by using the county offices in assessing and collecting taxes, but it is losing hundreds because the city management hasn't the money with which to cope with present conditions and supply equipment that is needed in every department to bring the departments to the standards a city the size and wealth of Santa Ana should maintain.

Santa Ana some time since discarded her swaddling clothes. She is just stepping out of short skirts—blooming into full womanhood— and she is hampered in the process of evolution by the woeful shortage of finances at the disposal of her "daddy"—the city council. The council, per force of financial conditions, is unable to execute plans that would hasten the advancement of the city and place it on the plane it is entitled to by reason of its exceptional advantages in a climatic way and as a home city. Santa Ana today is short of the police protection her residents are entitled to because the city exchequer is low—because the source of income is not sufficient to meet the legitimate expense of operation. The police force is underpaid, the members receiving only \$95 per month per member; new and better equipment is needed for the street department; the street fund is in the red and by the end of the fiscal year will be many thousands of dollars in the hole; expansion of the water and sewer systems is imperative if these are to keep pace with the growing residence and industrial districts; the fire department needs more equipment of an up-to-date character, the paraphernalia now in use being more or less antiquated and suitable for service only in a city of much smaller calibre than Santa Ana.

The ways in which the city could be bettered by action of the city council through use of funds are too numerous to mention in detail.

As Santa Ana is emerging into womanhood, she is just commencing to come into her own, and the development and increase in population will be greater in the next five years than in the past ten years, else I mistake the trend of the

Several times since this symposium, "For the Good of Santa Ana," has been running the suggestion has been from enterprising, progressive business men that one of the best things for Santa Ana and Orange county just now would be a big special edition of the Register—an edition of about 25,000 copies. Sure! Don't we know it? We do.

But listen, good friends: Book paper for such an edition can't be had at any price; and if it could be had the price is prohibitive, 22c to 25c per pound. As for news print—the kind of paper on which the Register is printed,—that is now our total cash receipts from all

sources were in 1913. And paper, even at the present price, is only about one-third of our cost of production.

Under the new contract we shall probably be able to accumulate enough surplus paper to get out a big special edition, and if we can plan to get out such an edition as would be a credit to Santa Ana and Orange County at bare cost, we shall issue it as soon as possible.

But in the matter of paper supply and price, the Register is fortunate among the papers on this coast, and the papers on this coast are fortunate among the papers of the country at large. Listen to this wall from Kansas—from the *Iola Daily Register*, of which our Mr. A. V. Napier was manager before he came to us:

The Register is offered today for immediate shipment only, a carload of paper at 11½ cents a pound at the mill. That would make the paper for a single edition of the Register cost \$600. Figure it out yourself. There are 312 publication days in a year. Can you imagine a paper in *Iola* gathering up enough money to pay \$18,720 for white paper alone in a single year? If you see a scared look gradually coming into the face of the folks about this office, this little item will tell you the reason why!

The Register is as keenly sensible of its duty and obligation in the matter of a special edition as anybody. And as evidence that it has never shirked that duty, we point with pride to the great "Orange County Quarter Centennial Edition" we issued in 1913, AT A LOSS TO THE PUBLISHER OF OVER A THOUSAND DOLLARS—A LOSS DELIBERATELY INCURRED TO KEEP UP THE QUALITY OF THE EDITION AND TO SECURE A LARGE CIRCULATION. IT COST US 50c A COPY TO PRODUCE, AND WE SOLD IT AT 25c A COPY.

Whenever we can see our way to produce a creditable Special Edition without robbing the Daily Edition of the paper it requires, and without sustaining a loss greater than we should bear, we shall do so with pleasure and pride in the achievement.

ORANGE, Mar. 22.—Mrs. Edward Bertman and Mrs. Harley Irwin entertained the "1919 Club" at the home of Mrs. Irwin, 632 West Main avenue. Progressive whist was the amusement of the evening and after a pleasant social time, refreshments of sandwiches, cake and chocolate were served to the following guests: Mr. and Mrs. Paul Ristow, Mr. and Mrs. Oscar Ristow, Mr. and Mrs. William Polston, Mr. and Mrs. William Schluter, Mr. and Mrs. Clemens Baier, Mr. and Mrs. Edward Bertman, Mrs. Delbert Danner, and Mr. and Mrs. Harley Irwin. Paul Ristow captured the first prize for the men, and Mrs. Oscar Ristow took the first prize for the ladies. The consolation prizes went to Mr. Polston and Mrs. Paul Ristow.

## "Never Has to Call a Doctor—Bathes Internally"

Mr. J. E. McNeil, P. O. Box 217, Globe, Ariz., writes to the Tyrrill Hygienic Institute: "I have been using the J. E. L. Cascade for the past twenty-five years and call it my cheap family physician for the reason that I have never had to call in a physician to treat one of the family. What a pity more of the human race are not acquainted with the virtues of the Cascade in a family!"

The J. E. L. Cascade cleanses the lower intestine of its entire length and keeps it always free of poisonous waste. Thousands testify that constipation, indigestion, stomach troubles, biliousness, headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

Rowley Drug Co. will be glad to show you the J. E. L. Cascade, explain its simple operation and will give you, free on request, an interesting little book by Dr. Chas. A. Tyrrill of New York, a noted specialist on Internal Bathing for 25 years in that City. Clip this out as a reminder to ask for its booklet at your first opportunity.—Adv.

## EVANGELIST TO ADDRESS M. E. BROTHERHOOD

Evangelist Bromley is to speak to the Booster Brotherhood at its regular monthly meeting tomorrow evening in the First Methodist church. Dinner will be served as usual at 6:30, and immediately following the dinner, Dr. Bromley will speak, and the business session will be held at the close of the meeting.

The members of First church have been attending the evangelist meetings in the Spurgeon Memorial church in large numbers, and are in hearty sympathy with the preaching of the evangelist, so that the Public Forum Department of the Brotherhood is in cordial fraternal relations with the work of the Church South.

The fact that both denominations are considering a plan of organic by the commissioners of both churches, and that the plan is likely to be adopted this summer by the highest legislative bodies of these churches, enhances the value of this exchange of courtesies.

A large attendance is expected at the Brotherhood meeting tomorrow evening. The speaker will get through in time to preach in the evangelistic meetings at Spurgeon Memorial.

### "RED" SMITH IN FOLD

LOS ANGELES, Mar. 20.—"Red" Smith, infelder secured from the New York Yankees, who has been holding out for more money, notified Manager Bill Essick of the Vernon team that he will report for duty early next week.

## FOR BURNING ECZEMA

Apply Zemo, the Clean, Anti-septic Liquid—Easy to Use—Does Not Stain

Greasy salves and ointments should not be applied if good clear skin is wanted. From any drugist for 35c or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive antiseptic liquid. Try it as we believe nothing you have ever used is as effective and satisfying.

The E. W. Rose Co., Cleveland, O.

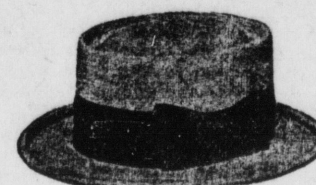

## After the Show

"After the show" you want a little something to eat or drink, and to sit down and talk it over with your friends; discuss the fine points of the actors, criticize when you feel like it, and arrange plans for the next theater party.

At such a time, your steps should lead you to James', for here you may enjoy a tastily prepared luncheon or cooling drink, rest, and discuss the show to your heart's content. Whether you attend the matinee or evening performance, James' is at your service in the "after the show" hour. And a nice box of chocolates, as you go out, will put the finishing touch on an afternoon or evening of enjoyment.

# LECTURE TREAT AT THE GROVE APRIL 20-22

GARDEN GROVE, Mar. 22.—The "Booster Committee" for the Radcliffe Chautauqua has arranged for a three-day educational treat for Garden Grove, April 20, 21, 22.

F. W. Emerson, a California man, will be director and will give a lecture. Lectures will also be given by Terry, of California, and Dr. Guy M. Bingham, of Ohio. The Porter Concert company, vocal, violin, cornet, and trombone, will furnish music.

Another pleasing feature of entertainment is Losen's Imperial Russian Quartette, one of the best on the Chautauqua circuit. They will have the Russian balalaika, the national instrument. Also the Dudas-Starkbuck Concert company, one of the snappiest piano and zylphone attractions on the Chautauqua circuit.

The children's play director will be Mrs. Cora Melton Cross.

Visitors From Elsinore.

Mr. and Mrs. J. N. Du Vaul returned Wednesday from a week's visit with their daughter, Mrs. Frank Winters and family at Elsinore. They were accompanied home by Mr. and Mrs. Winters and family, who will visit Mr. Winters' parents, Mr. and Mrs. John Winters, and other relatives for a few weeks.

Mr. and Mrs. A. J. Chaffee are enjoying a visit from Mrs. Della Chaffee, of Long Beach.

Mrs. George Mills submitted to an operation at the Anaheim hospital last week and is very ill.

D. Carr was expected home from Long Beach sanitarium Saturday.

Dr. and Mrs. Friend, of Los Angeles, spent Friday at the home of the latter's brother, Warren A. Wheeler.

C. R. Simmons and son have made a cement walk, joining the sidewalk in front of Mrs. J. O. Fulsom's residence with that of the Methodist church.

The Thurston Richardson family have purchased a residence in Long Beach and moved into their new home. Mr. Richardson will join them soon.

## YAKIMA RED MEN GOOD TRAPSHOOTERS

YAKIMA, Wash., Mar. 22.—Stories of the old days of Indian wars caught us the Red Men were remarkable rifle shots. In these days of peace with the Indians, we had forgotten the Indian's ability as a shot until the Red Men of the Reservation at this town took up trap shooting. The Indians now have an organized trap-shooting club known as the "Tipi Indian Gun Club of White Swan" and are enthusiastic followers of this sport. Incidentally they participate in many registered shoots of this section and are always winners in events.

Indians have achieved considerable prominence in other parts of the country as trap shots, some of the notables being "Chief Bender, the famous pitcher of the Philadelphia Athletics, a full-blooded Chippewa Indian; M. H. McDaniel, a full-blooded Choctaw of Durant, Okla., who won the western handicap at Omaha in 1917, and Hayes Little Bear, an Osage of Pawhuska, Okla.

## SO. CAL. RECRUITING RECORD INDICATED

Reports from the War Department indicate that the Los Angeles district, which embraces all of Southern California and Arizona, is making a record for enlistments. The district stands sixth in the United States in the percentage of recruits secured in proportion to its quota. The War Department has announced that men will now be accepted for one or three years in the Construction Division of the Quartermaster Corps, with or without former military experience. The Field Artillery and Engineers are also open for enlistments under the same conditions. It has also been directed that married men can enlist or re-enlist under certain conditions.

**FAIR LAGUNA TOWN.**  
A canyon of rocky faces  
Set in green and brown  
Blends smiles with the Queen of places;  
With fair Laguna town.

And the sands along the sea,  
And all the wild birds too,  
Folice a joyful melody  
To the bass of the rolling Blue.

We would to fancy turn;  
To fact if the tale be true;  
Mermaids live in the water's churn  
And sing and smile at you.

Out of caves in Ocean's rim,  
And when the moon is bright,  
These fairy beings smoothly swim  
From the rugged depths of night.

Through swish of silver spray  
And plinking of the surf  
Their luring voices charm and sway  
All creatures of the Earth.

The canyon, with moonlight glances  
Over its green and brown,  
Smiles and shares the fancies  
Of fair Laguna town.  
—Harvey D. Cheney.

Speaking of divorces, Judge Tat of Los Angeles says a law should be passed requiring couples to publish their intention of marriage for several weeks before they marry, and forbidding them from marrying for several years after they are divorced. Judge Moran of Reno, Nevada, who probably has seen more divorce cases than any other judge in the country, says the only way to stop divorces is to teach children in home and school that divorces are wrong. He would go at it like the drys went it making the nation dry—start forty years before by raising a generation of temperance youngsters, then follow it with laws on the subject after public sentiment was trained in favor of it. We believe both the judges are right on the divorce proposition, but we further believe that Judge Moran's part of the cure will have to be taken first.

## HOLDS GRIFFIN NET MATE FOR JOHNSTON

By WILLIAM UNMACK.  
SAN FRANCISCO, March 22.—Eastern tennis experts are trying to figure out just who is the logical man to team up with Champion Willie Johnston of California, to represent this country in the doubles when the United States team goes to Australia for the Davis cup events.

Last Sunday the logical man was found, and he is another California tennis star of world fame in "Peck" Griffin. It is the same steady, reliable and sensational "Peck" of a few years ago. He was not in the game to much extent last year owing to his duties in the navy, but last Sunday he showed himself to be probably the greatest doubles player in the world—not even excepting Willie Johnston. What a combination these two would make! The two men met Sunday in a mixed doubles. Willie played with Mrs. Hazel Hotchkiss Wightman, the national woman's champion, and "Peck" teamed up with Helen Baker, the coast singles champion. The two national champions won the first set, but they had to bow to Griffin and Helen in the next two sets, the final one running to twenty games. Griffin showed himself a remarkable doubles player. He was all over the court, ready for everything, and his clever volleying and placing had the two champions in trouble all the time. There is no question but that both Griffin and Johnston are now coming right along to the top of their form, and when they hit it right it is doubtful if any doubles team in the world will be able to

## CREAMERY MANAGERS HIDE LEMON EXTRACT

SIOUX FALLS, S. D., Mar. 22.—Managers of creameries in South Dakota now are placing their supplies of lemon extract under lock and key at night, following a raid made on a creamery at Parker by men who are anxious to get something to drink in these "bone-dry" times that has a "kick" in it.

Creameries utilize the lemon extract for flavoring ice cream, which many of them manufacture for the market. In the raid on the creamery at Parker the booze hunters secured a jar containing three gallons of lemon extract.

It appears that the booze hunters only recently discovered that creameries which manufacture ice cream have large supplies of lemon extract on hand, and therefore it has become necessary to place the extracts in a safe place at night to prevent their confiscation.

### NOTICE

All residents are hereby notified that Ordinance No. 129, Section 14, prohibits the placing of any trash, brush, trimmings or waste of whatever nature upon the street, walks or alleys of the city. The practice of raking lawns, cutting bushes or trees, and placing of refuse upon the street or placing of any trash upon the streets, except as permitted by ordinance, must cease.

W. W. HOY, Supt. of Streets.

offset them. The east is figuring on Norris Williams as the man to team up with Johnston, but if the two California men go east for the national championships there does not look at this time any pair in the east who can beat them, even with Williams as one of the eastern team.

## RECORD GINDER PATH SEASON FORECAST

By WILLIAM UNMACK  
(Written for Pacific Sports Service)

SAN FRANCISCO, Mar. 22.—College track and field athletes of all sections of the Pacific Coast are fast rounding into shape for the ginder path season. That 1920 will be one of the biggest sports seasons is a foregone conclusion.

The big incentive this year is naturally the Olympic games at Antwerp, and it is the ambition of all athletes in this country to be in line for consideration as one of those who will be selected for the American team.

While the coast has a number of high-class athletes, yet if we look cold, hard facts straight in the face we have to admit that there are not more than a dozen athletes—at most—who can come up to the severe standards that are necessary to gain a place on the American team. The sprints are a good example of this, and there are probably only three men who stand a chance of selection and it is a foregone conclusion that the three will not all be selected, as the East also has remarkable sprinters. The men I refer to are Henry Williams, Spokane A. C. senior national 1919 220 champion; Charles Paddock, Los Angeles A. C. winner of both sprints in the Paris Inter-Allied games, and Morris Kirksey of Stanford University, national junior 100-yard champion.

The 440 yards, 880 yards and one mile fall to show a coast man who is class enough for the American team. In the hurdles it is different and Carl Grunsky of California varsity and Jud House of Stanford loom up as possibilities in these events.

The high jump has a good prospect for selection in Johnnie Murphy of the Portland, Multnomah Athletic Club, the present national junior and senior champion. Tompleton of Stanford University is another possible man in this event. In the pole vault, Ralph Spearow, another Multnomah Club man, with the coast record of 13 ft. 1/2 in., and Elden Jenney of Washington State College are the two outstanding men. In the shot-put Reg Caughey of Stanford, winner of the Inter-Allied shot-put, is one of the best men in the country today and has a record of about 48 feet. Arthur Tuck, University of Oregon, should be a big contender for the javelin with his present record of 190 feet. In my opinion there is not a hammer thrower on the coast who can make the standards. McEachern of the Olympic Club, and Merchant of the California University, are both good for 165 feet, but that is not good enough. Merchant, however, will make a big bid for the broad jump and his coast record of 23 feet 9 inches, made this week, puts him in line as one of the country's best jumpers. These are the only men in the writer's opinion who stand a chance of being selected.

### BUYS HIS STOLEN BIKE

INDIANAPOLIS, Ind., Mar. 22.—Albert Livingston, negro, sauntered into a second-hand store on Darktown's Fifth Avenue, bought a bike and rode it home. He discovered the same bike had been stolen from him last November.

## NEW MATERIAL FOR LEAGUES IS SCARCE

By FRANKLIN B. MORSE.  
(Written for Pacific Sports Service)

SAN FRANCISCO, March 22.—There are few managers of any of the teams in the various leagues of the country who are not losing sleep these days over the matter of getting baseball material with which to make up their playing machines. This goes for the major organizations as well as for the lesser ones. While the various clubs are well fixed financially, they have found that the high cost of living has not excepted the national game and the prices which are being asked for players has had a distinctly upward revision. An instance of this will be sufficient to show just how things are going in this direction. Manager McGraw of the New York National Giants offered a cold \$100,000 for Roger Hornsby. It was refused. A similar offer for the services of "Rabbit" Maranville had with a similar result.

One thing already has been revealed and comes from the various camps where the clubs are doing their preliminary training. It already is known exactly what teams are going to win the pennants in their respective leagues. Eight teams in the National League are slated for this high honor. Ask the manager of each. He has it all figured out just why the other fellow can't win. The same goes for the National, American, and other leagues that are doing business at their old stands.

Considerable attention seems to be given to the Sacramento team of the Pacific Coast League, it being evident that the sport writers are sweet on its chances of turning out a team that will have to be reckoned with. As a matter of fact though, baseball writers are a good deal like the managers. They are prone to favor the home talent which, after all, is natural enough.

For the reason that he is a newcomer, considerable interest naturally will center about the doings of Ernie Johnson, the new leader of the Salt Lake Bees. Johnson sums up the prospects of his team as follows:

"The team will be stronger this year for the reason that I have no dissatisfied players on my pay roll and, secondly, I have taken, and will continue to take the utmost care that the opening of the season does not find me with a lot of incapacitated players."

The early training camps have a faculty of producing as many cases of Charley Horse as they do capable players, and these early strains, which often will last through the season, are the bugbears of the men in charge of the conditioning of the athletes.

Strange as it may seem, only a few of the men who were stars on their college nines ever have shone with any particular lustre on the professional diamond. The names of the college men who have gained fame are a small minority as compared to those who have slipped into oblivion.

The latest college athletic star to try for diamond honors in the big show is Joe "Cuddy" Murphy, a four letter man from Dartmouth college who was a star of last season's football eleven. He will attempt to make his opening bow with the Boston Red Sox.

It will be remembered that Jim Thorpe was a one time football star and an all round athlete. Manager McGraw of the New York Nationals tried for years to make a diamond star of him with practically no success. On the other hand, Christy Mathewson is a shining example of the college man who made good. Of course there have been others but, taken by and large, the "sandlot" boy seems to hold his own as the backbone of the great American game.

## SWEEPSTAKE PLAY ATTRACTS GOLFERS

It has been proven that a man does not have to have played golf all his life to win prizes at the game, for M. E. Metcalf of Auto Club fame, by the aid of a generous handicap, came in and lengthened the faces of Dr. W. A. Flood and Lew Wallace, who were tied, as they hoped, for first place in the Saturday Sweepstakes at the Orange County Country Club. Metcalf finished three down to Par and the other two were six down.

There were thirteen entries and it was surprising how many of those playing were off their game, or, at least, apparently ashamed to turn in their scores. There really was no just cause as the course is in good shape, though some of the players think that "the rough" is a bit too long.

In fact, if a ball gets off the fairway it generally means several minutes before the next shot is played, and the whole match adjourns into the long grass to hunt the elusive dimple.

Welsh, the new professional, has been handicapped in his work by the misarranging of his implements of torture, i. e., his golf supplies, which left Los Angeles March 10 and have not yet shown up. He hopes to get hold of them in a day or so, and meantime is prepared to instruct anyone in the mysteries of the game.

Rumors says that a number of the "golf widows" in Santa Ana and Tustin are thinking of starting a club of their own to hold their meetings from six to nine. What will the regulars do for supper?

"Do o tonfortoeospelk  
"Do not forget that this is the week to qualify for the Dragon Cup," said C. G. Twist, president of the Orange County Country Club, today.

Federal food inspectors report that a good deal of ice cream in this country has glue in it. To make it stick to the consumer's ribs, we suppose.

## THOUGH 80, MAN IN KY. WRITES CARDS

ELIZABETH, Ky., Mar. 22.—Charles Friend of Glendale, who is 80 years old and never would be taken to be over 70, was in town the other day. He still writes visiting cards for the young people and so steady is his hand and so perfect his eyes that the cards almost look like they were engraved. Whenever he takes a notion that he wants to go to Hodgenville he walks there and back a distance of ten miles each way.

## WABASH POLICEMAN BANS 'JAZZ' MUSIC

WABASH, Ind., Mar. 22.—Jazz music is the cause of suggestive dancing and must go, according to Mrs. J. M. Ulrich, police matron here. She has asked all fraternities and clubs here to discontinue music of that kind and during the last few weeks a number of jazz selections have been stricken from the dance programs. As a result, Mrs. Ulrich says, dancing here has improved appreciably, and that now there is little or no complaint to be made against dancing, as it is done here.

## 10,000 GALLON STILL SMASHED BY SLEUTHS

COLUMBUS, Ga., Mar. 22.—An illicit distillery with a capacity of more than 10,000 gallons and a plant equipped to manufacture "moonshine whiskey" on an enormous scale was destroyed six miles from Phoenix City, Ala., by Sheriff Betts and two deputies. Two negroes were arrested, but steadfastly refused to divulge any information which might implicate others. The still was in a brick furnace and had only made one run, it is said. Two thousand five hundred gallons of mash beer, thirty-four barrels and four boxes used for fermenting were destroyed.

## MAN GETS RICH ON 11 ACRES GROUND

COTTONWOOD FALLS, Kansas, Mar. 22.—Henry Wehrenberg, a prosperous Bazaar farmer had an eleven acre alfalfa field last year which produced \$2,045.25, not far from \$200 per acre. His first and second hay crops yielded a total of twenty-eight tons and the third cutting he let stand for a seed crop which threshed out sixty-nine and one-half bushels of seed. His seed was worth \$1,355.25.

## 1500 REINDEER TO COME FROM ALASKA

VANCOUVER, Canada, Mar. 22.—Fifteen hundred reindeer are to be transferred from Alaska to the region of Hudson Bay. Provision for the transfer of reindeer is made in considerations obtained by the Dominion Government in its lease of 75,000 square miles of territory north of Churchill River to the North American Reindeer Company. The reindeer are to be used as the nucleus of herds to be established in Northern Manitoba for the sustenance of natives and whites in what is expected to become a highly populated district with the impending mining development.

## Wanted Grocery Clerk

Must come well recommended. Apply to Gallede.

### RAIN PUTS STOP TO BASEBALL CONTESTS

Two baseball games which were to have been played at Anaheim yesterday afternoon were postponed because of rain and another game in which an Anaheim team was to have taken part at Ontario was also postponed because of the storm. The first of the two games scheduled for Anaheim was to have been a comedy affair between teams known as "The Leans" and "The Fats." The second game was to have been played between the Long Beach Elks and the Anaheim Tigers. Berger Cubs were to have played at Ontario.

Rain also resulted in the opening of the new baseball grounds at Orange being postponed for one week. Orange and Arroyo Seco were to have staged the opening struggle on the new grounds yesterday.

### ROUND TABLE CLUB TO MEET ON WEDNESDAY

PLACENTIA, Mar. 22.—The Placentia Round Table meeting which was postponed on account of the death of a relative of club members will be held on Wednesday, March 24. The program that had been prepared will be carried out and the teachers of the Placentia school will be responsible. It will be guest day with the Parent-Teacher Association as guests of honor.

**IN A HURRY**  
After plying his art for a few minutes the young doctor handed his patient a bottle of medicine.  
"Take this medicine," he said. "If it doesn't cure you come back in a few days and I shall give you something that will."  
The patient pocketed the bottle reluctantly. In a few minutes he returned.  
"If you don't mind doctor, I'll take some of what will cure me right away."—Houston Post.

### AVENUE EXTENSION TO BE OPEN SOON

The extension of Placentia avenue from the north side of the Ford place to the state highway near the County Hospital is to be put to grade within thirty or sixty days, County Engineer McBride expects to grade the road soon and cover it with clay. It is figured that in the sandy soil clay will make a much better top than gravel. Money for the work has been made available from funds within the control of Supervisors S. H. Finley of Santa Ana and N. T. Edwards of Orange. Deeds for the road were recently accepted by the county.

### MAN WRITES BOOK ON LIFE AFTER 85 YRS.

GRASS VALLEY, Cal., Mar. 22.—After writing a book entitled "Viewing Life After Eighty-Five Years," Benjamin Sanford of this place has commenced a sales campaign in which he has essayed the part of sales manager, salesman and office force. He is visiting the houses of the city and is meeting with success in the sale of his book.  
He has a sound philosophy that seems to make a hit with the people, and they buy the book without hesitation.  
Sanford works all day long and at night shows no indication that he is tired. For many years he owned and operated a fruit orchard in the Smartsville district and sold his fruit in this city and Nevada City for half a century. During the past few years he has lived with his children in different parts of the State, and in his declining years is getting a great deal out of life.

### ETHICS CODE SOLE UMPIRE ON LINKS

By FRANKLIN B. MORSE  
(Written for Pacific Sports Service)  
SANTA ANA, Mar. 22.—That golf is the one outdoor game of a competitive nature that does without the services of an umpire or a referee is a fact that few persons have given thought to, and yet it is so. Football, baseball, tennis, track athletics—in fact, all other lines are provided by one or more arbiters. This is because there exists in a strict code of ethics which, thus far, has not obtained in other lines of activity.  
In golf each competitor keeps a tally of his own score, and to violate the honor imposed on him would be tantamount to cheating at cards or stealing a sum of money from a friend. The game calls first and all the time for the best consideration of one's opponent. No overt act, no matter how slight, that might tend to spoil an opponent's stroke ever is dreamed of. No man who practiced such methods would be allowed to remain a member of a club.  
This spirit of fair play gradually is entering into other lines of sport and much of the credit of it belongs to golf. In the last twenty years the game of golf has grown like no other sport, and the sporting public gradually is absorbing the fine points of the ethical side of the ancient and honorable Scottish pastime.  
In the old days it was considered rather smart or wideawake for the player on a football team to covertly take some unfair advantage while the referee or umpire was not looking. The sin lay in getting caught. Today, the player who would attempt such a thing would be frowned on and probably told

### RAIN JINX CLINGS TO BEVERLY COURSE

Automobile races scheduled for yesterday afternoon on the new Beverly Hills tracks were postponed until next Sunday because of the rain. While the track was in perfect condition for the sprints, the parking space was a mass of mud and gumbo and for that reason the race committee decided to postpone the events.  
Reports from Los Angeles are to the effect that many of the drivers will welcome the additional week for practice as they are anxious to have a try at lowering the record of 33.40 seconds hung up by Ralph De Palma last week.

A display of "shootin' irons" taken off of famous bandits by William Tilghman, for thirty-two years United States marshal in Oklahoma and Kansas, is on display in Live-sey's window on East Fourth street. It is stated that since these guns were taken they have been mounted with gold and silver for display purposes.

that a repetition of the offense would mean his disconnection with the team.  
Mean advantages of a petty nature are being more and more discontinued and replaced by fairness, honesty and a disposition to compete on an open and above-board basis. What once was looked upon as a clever evasion of the playing rules now is rated as a dishonorable thing to do.  
A great proportion of the college men take up golf in after life and as members of the athletic boards of the various universities they have been inculcating the idea in the rising generation. The influence of golf for a higher standard of ethics in other sports will continue to grow. There can be little doubt that it effected the initial awakening of the sporting conscience.

## Do You Ever Go Window Shopping?

What you see in our windows reflects what you find in our Store. Neither wilfully or by accident do we intend that our window displays shall create the wrong impression or act as a false stimulant to whet the appetite and then disappoint the intending purchaser after the feast is spread.

We mean that our windows shall always be a true index of values not only in prices but in the character of the merchandise displayed as well. And there shall always be plenty of it inside the store—we promise you that.

# VICK'S VAPORUB

## offers a new way to treat croup and cold troubles

**THE OLD WAY**  
Treatment by internal dosing, which does not reach direct to the affected parts and which frequently does derange the digestion.

**DIRECTIONS FOR THE USE OF VICKS**  
Vapors Important—For diseases of the respiratory organs, such as colds, a large part of the value of Vicks lies in its vaporizing qualities. Therefore, whenever Vicks is applied over the throat and chest, care should be taken to leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel, so that the vapors arising may be freely inhaled.

**Hot Wet Cloths**—In cases of very severe colds, sore throat, coughs, incipient pneumonia, etc., hot, wet towels should be applied over the throat and chest to open the pores of the skin before applying Vicks.

**Fresh Air**—Plenty of fresh air in the bed room is the best way to prevent colds and lung troubles. Fresh air does not cause colds; it strengthens the lungs, enabling the system to throw off colds.

**Asthma**—Vicks is not a "cure" for asthma—so far as we know, there is no cure. In many cases, however, Vicks does give relief. Rub it well over the spinal column, from the neck to the hips to relieve the nervous tension. Then apply freely over throat and chest at bed time and cover with hot flannel. Remove frequently and always have the covers loose, so that the vapors may be freely inhaled. Also melt Vicks in a spoon and inhale the vapors and apply a little up the nostrils.

**Bronchitis, Sore Throat, Colds in the Chest**—If a severe case, first apply hot, wet towels over the throat and chest. Then rub Vicks in well until the skin is red, spread on thickly and cover with two thicknesses of hot, flannel cloths.

**Catarrh, Colds in the Head**—Melt a little Vicks in a spoon and inhale the vapors. Also apply well up the nostrils. There are so many varieties of catarrh that a competent physician should always be consulted. For many forms, however, Vicks is excellent. Dissolve a half teaspoonful of salt in a pint of warm water and cover with the nostrils night and morning. Then insert Vicks freely up the nostrils as far as possible, sniffing well back into the air passages.

**Children's Colds**—Vicks is particularly valuable in treating children's colds, since it is an external treatment, and therefore, does not disturb the delicate digestions of children. The best plan is to keep Vicks constantly on hand and apply freely and often at the first sign of "sniffles."

Growing children require plenty of fresh air and exercise and should be

**COLDS** are simply inflammation or congestion of the mucous membrane or lining of the respiratory organs—air passages and lungs. They should be treated just as surface inflammations, such as Burns or Bruises are treated—that is, the medication should be applied directly to the inflamed parts. Internal medication going to the stomach does not reach directly the affected parts. But medication cannot be applied directly to the air passages and lungs except in the form of vapors that can be inhaled; and, until the discovery of Vick's VapoRub, there was no efficient, economical method of supplying these vapors.

**THE NEW WAY**  
Treatment by Vick's VapoRub, which is applied externally—relieving by inhalation as a vapor and by absorption and stimulation through the skin.

kept in the open as much as possible, even in the winter.

**Coughs**—Apply Vicks as directed for Colds in the Chest and Head, and if the cough is very annoying, swallow, every few hours, a small piece the size of a pea.

**Croup—Spasmodic**—Rub Vicks freely over chest and throat until the difficult breathing is relieved. One application is usually enough. To prevent croup during the night, give a good application over the throat and chest at bed time and cover with hot, flannel cloths.

**Influenza**—In spite of the epidemic last winter, very little is known of this disease—even the germ causing it is not yet definitely located and no specific for influenza so far as known has been discovered. In all cases a physician should be called promptly.

Vicks is to be used as an external application in connection with the physician's treatment. Apply as directed for Pneumonia.

**To Avoid Influenza**—Influenza is a spit-borne disease, and when inhaled the germs attack the mucous membrane, or lining of the air passages. Even this is not absolutely certain, but it is agreed by most authorities that keeping the system in good condition, and the air passages stimulated and free from colds is the best way to avoid the disease.

Melting a little Vicks in a spoon night and morning and inhaling the vapors, and applying well up the nostrils several times a day, particularly when in crowds, is recommended.

**Pneumonia**—(1) Send for your physician at the first sign of pneumonia. (2) Immediately begin the use of Vicks as an external application. For pneumonia, Vicks is applied somewhat as directed for Croup, Chest Colds—for full directions see the Directions Folder.

**Tonsillitis**—Apply as directed for Sore Throat.

**Whooping Cough**—This is a self-limited disease, running a course which varies from a few weeks to several months. There is no known specific—Vicks is of value in easing the cough paroxysms, and thus lessening their weakening effect on the system. Rub Vicks well over the spinal column, from the neck to the hips, to relieve the nervous tension. Then apply over throat and chest, covering with hot flannel.

**Vicks is Not Meant to Replace the Physician**—At the first symptoms of a serious illness, such as pneumonia, a physician should always be called. Many other troubles, such as chronic catarrh or continued headache, call for the diagnosis of a good doctor.

## Vicks Acts Both Externally and Internally

VICK'S VAPORUB is the discovery of a North Carolina druggist, L. Richardson, who found a way to combine the standard, time-tested remedies—Menthol, Camphor, Turpentine, Eucalyptus, Thyme, Juniper, etc.—in salve form, so that when Vicks is applied to the body, these ingredients are vaporized by the body heat.

**INTERNALLY**, these vapors, inhaled with each breath all night long, carry the medication direct to the air passages and lungs

**EXTERNALLY**, Vicks is absorbed through and stimulates the skin, attracting the blood to the affected parts and aiding the vapors inhaled to relieve the inflammation or congestion.

### How the Use of Vicks Has Grown

Starting with the customers of Mr. Richardson's retail drug store, the use of Vicks has increased county by county, state by state, until now more than 17 million jars are used annually—practically one jar for every family in the United States—and this in spite of the fact that Vicks is still a new treatment to many people in the North and West. Once used, Vicks is a friend for life—it is so easily applied—so quick in its results.

With .61 of an inch of rain falling for the forty-eight hours ending at 7 o'clock this morning and .55 of an inch being precipitated between 7 and 7:30 this morning, the March record is gradually mounting to the high record for the month of March in the past ten years. Records at the Hill & Son store, where the measurement is kept systematically, and where permanent and correct records of the past are available, show that the fall for this month to date exceeds all but two months of March in the past ten years. Including the precipitation up to 8:30 this morning, the total for the month is 3.21. March, 1912, produced an even 4 inches and the same month in 1918 gave a record of 4.83.

The records for the month of March in the past ten years are as follows: 1919, 2.29 inches; 1919, 1.97; 1911, 2.31; 1912, 4; 1913, 4.0 of an inch; 1914, .99 of an inch; 1915, .57 of an inch; 1916, 1.27; 1917, .22 of an inch; 1918, 4.82; 1919, 1.66; 1920, 3.21.

## Fourth Rainy Sunday

For the fourth Sunday in succession rain played an engagement here. It started early yesterday morning, accompanied by a cold wind, and rained at intervals throughout the forenoon. The afternoon was bright and clear and it was supposed the storm had passed. However, along towards evening the sky became overcast and there were intermittent showers early last evening.

Between 7 and 8 o'clock this morning one of the heaviest rains of the season broke over the section and for half or three-quarters of an hour the moisture came down in sheets. Fourth street gutters were flooded to the limit and at certain crossings it was impossible to cross the street without wading in water up to the knees.

The habit of raining on Sunday and clearing on Monday seems to be in the interest of the working people, for no time is lost on account of the rain, except possibly by some ranchers who find the soil too wet to continue with the land preparations for day or two following a rain.

11.65 Season Total  
The total for the season up to 7 o'clock this morning is 11.65 inches, which is about the normal seasonal fall. The abundance of rain insures bumper crops in Orange county and the farmers today face one of the most prosperous seasons in recent years. The rains have come so gently and at such opportune times that every inch of moisture has soaked into the ground.

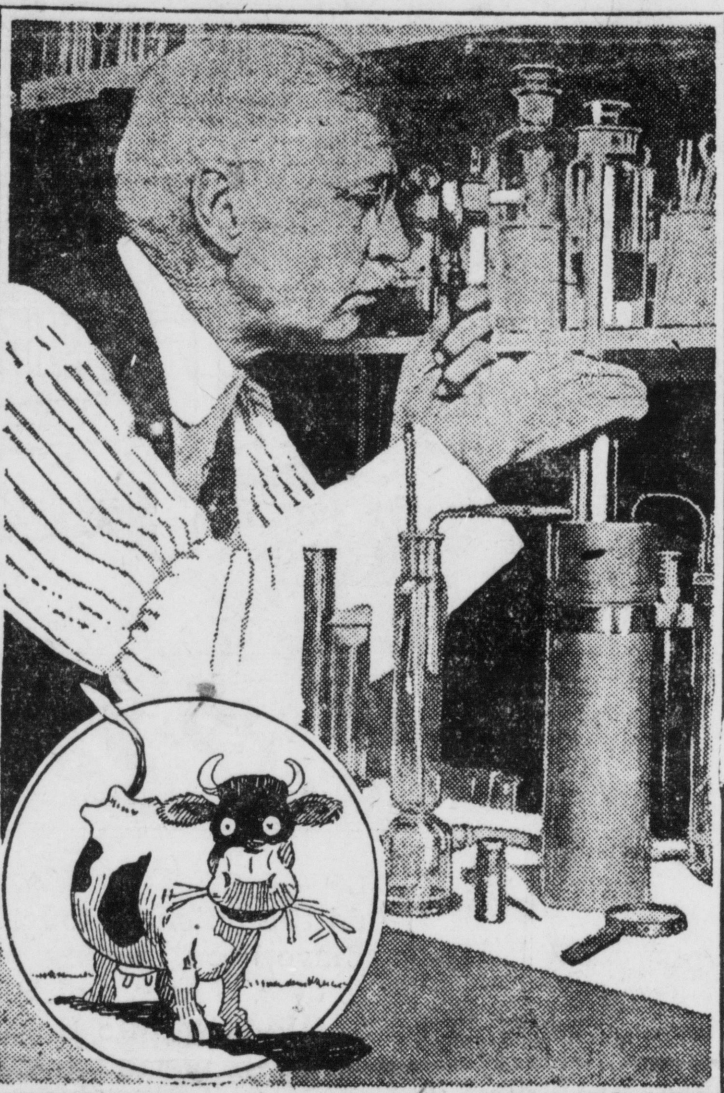

Cattle feed on the ranges, barley, beets and bean heads are all benefited immeasurably by the recent rains, to say nothing of the value to the citrus and deciduous lands. Beet planting is pretty near its end and in some localities, where planting has been early, thinning already is in progress.

Bean farmers are busy getting their lands in shape for planting, which will start about the middle of April with rush of the planting season commencing about the first of May. Some growers believe in the April planting while others do not, the latter being in the majority.

Facing one of the most prosperous years in their history, and with all doubt removed from their minds as to the rain, farmers generally are executing or preparing to execute plans for carrying on extensive operations.

## ELEVENTH HOUR CANDIDATES IN RUSH TO FILE

The time for filing nomination papers for the April 12 municipal elections to be held in the cities of Orange, Anaheim, Fullerton, Brea, Newport Beach, Huntington Beach, Seal Beach and Stanton expires at noon tomorrow, March 23, and "eleventh hour" candidates in the various cities were preparing to file their papers with the city clerks of their respective cities today.

Some cities, no doubt, will have others will, especially where election temperature registers high. Anaheim is one of the towns where some late nominations are expected to be made, as the civic center site issue there will no doubt have its strong supporters and its opponents. Remember, the nomination papers must be filed by tomorrow noon, and if you have any municipal political aspirations very little time remains in which to get your name on the ballot for this year's vote.

## CUTICURA HEALED ITCHING BURNING

Pimples On Face. Also Blackheads. Large and Red. Lost Sleep.

"By eating rich foods, my face was getting redder until it was full of pimples and blackheads. These kept growing larger and were red and hard. My face began burning and I could not sleep on account of the itching. This trouble lasted about three months."

"I saw an advertisement for Cuticura Soap and Ointment, and I bought them and I used two cakes of Cuticura Soap and one box of Ointment when I was healed." (Signed) Andrew Benny, 2215 West 5th St., Cleveland, Ohio, Mar. 29, 1919.

Rely on Cuticura Soap, Ointment and Talcum to care for your skin.

Sample each free by mail. Address: "Cuticura Laboratories, Dept. B, Malden, Mass." Sold everywhere. Soap 5c. Ointment 15c and 50c. Talcum 5c.

Cuticura Soap shaves without mug.

## HILL CLAIMS WILL ATTEND RULING IS AWAITED

Men Who Filed on Government Land in Doubt as to Papers' Status

A number of Santa Ana men who have been suspected for several months of devoting their thoughts to the erection of beautiful air castles and dreaming in off periods of great gobs of gold flowing from oil wells to be put down in the Santa Ana range of mountains between Trabuco and Santa Ana canyons, are beginning to wonder if they are about to wake up.

Several months ago considerable government land in the above section was filed upon by various groups composed of Santa Ana, Orange and Los Angeles men. The filings were made because of the opinion that Orange county's rich oil fields extended into that field. Therefore the visions of millions and millions. Nearly all persons at the county court house are "in on the filings."

But now along comes Uncle Samuel with a law recently enacted by congress which is likely to shatter the golden dream of the local aspirants to wealth. According to Earl S. Morrow, manager of the Orange County District, of the Pacific Telephone and Telegraph Company, who has been looking after the interests of the various groups, the law does not concern filings made before October 1, 1919, but he is in doubt as to just what effect it is going to have on filings made since that time.

The new law abolishes the right of individuals to file on government land for mineral purposes without government sanction. The law further provides that a large per centage of the proceeds from operations be turned into the United States treasury.

Morrow expects to go over the territory this week to see just what land is involved by the bill and in the meantime is making an investigation through legal channels to discover what effect the new law will have on the filings of local men.

## MISS MARY ELLIOTT HONOREE AT SHOWER

ANAHEIM, Mar. 22.—One of the most delightful affairs of the week was the linen shower given by Misses Hazel Withee and Viola Elliott at the home of the former in compliment to Miss Mary Elliott, whose wedding to Norbert Anderson is a society event scheduled for the near future.

The rooms of the Withee home were effectively arranged with ferns and long sprays of bridal wreath, so beautiful in the spring season.

After a season of merry conversation Little Kathleen Sheridan, dressed as a dainty fairy, rolled in an express wagon beautifully decorated with green and white crepe paper laden with beautiful linen gifts and presented them to the bride-to-be.

The gifts were very beautiful and will find a place in the new home to be established.

Late in the evening refreshments were served. Those present aside from the honor guest and the two hostesses were Misses Ruby Daggett, Margaret Lawrence, Luna Wellman, Anita Herzler, Edith, Esther and Vallie Pember Mrs. D. W. Anderson Mrs. Floyd Curtis, Mrs. Lynn Davis, Mrs. Ed Anderson, Mrs. W. J. Elliott, Mrs. Leo Sheridan, Mrs. A. P. Withee and Little Miss Kathleen Sheridan.

## D. B. LANDERS JOINS ALEXANDER'S FORCE

Announcement was made today by W. E. ("Immediate Delivery") Alexander, Jr., agent for Westcott and Allen cars, that D. B. Landers, formerly district representative for the Western Rubber and Supply Co., had joined Alexander's organization here. Landers is known as a "live wire" in automobile sales circles and Alexander prides himself on having been able to secure Landers' services.

Former Messiah Church Rector Is Summoned By Death In L. A.

Death came yesterday in Los Angeles to Rev. W. H. Wotton, for thirteen years rector of the Church of the Messiah, Episcopal, of Santa Ana. It came as an end of many months of suffering and anxiety.

Rev. Wotton's life was full of exemplary service. Born in Worcester, England, educated at St. George's School in Bristol, England, he crossed the Atlantic to Canada and there took up teaching. He was principal of the Church of England School for Indians at Saint Ste. Marie, Ontario. At one time he served a period with the Canadian Mounted Police.

Entering the study for the ministry, Rev. Wotton was ordained at Detroit. His first work was as a missionary under the Bishop of Alaska. Returning to the States, he served in parishes in Michigan and Wisconsin before coming to California.

In California he served four parishes, St. Athanasius and St. Luke's, both in Los Angeles, the Church of the Messiah in Santa Ana, and St. James in South Pasadena.

The best years of Rev. Wotton's life were given to the Church of the Messiah in this city. For thirteen years he was its rector. He and his wife and son and daughter were essentially a part of the social life of the city. Here the children went to school and grew up. Rev. Wotton's work for the Church of the Messiah was today described as "a fine constructive and progressive service."

Rev. Wotton had a rare gift of language. For sheer beauty of diction, for the power to paint a word picture, for devotion and constructive ability, Rev. Wotton will always rank among the ablest of the ministers of the Church of the Messiah in 1899 and went from here to South Pasadena in 1912.

About four years ago, Rev. Wotton's health began to fail, and two years ago he had to give up his parish. He made a brave fight against the encroachments of disease, but his physical being was so badly shattered that when he suffered a partial stroke of paralysis two weeks ago he sank rapidly. Death came yesterday at the home at 913 Edgemont street, Los Angeles.

The funeral is to be held tomorrow morning at 10:30 o'clock at St. Paul's Pro-Cathedral, Los Angeles. Many members of the Church of the Messiah, and its rector, Rev. W. L. H. Benton, will attend the funeral. Interment will be at Hollywood.

The last time that Rev. Wotton officiated in the pulpit was at the funeral of Mrs. James S. Rice at the Church of the Messiah. His eulogy of Mrs. Rice was a gem of rare beauty and sentiment.

## PLANS WIDENING HIS BUSINESS KNOWLEDGE

E. T. McFadden, one of the proprietors of the McFadden Hardware Company of this city, has gone to Los Angeles, where he will be employed for several weeks with a wholesale hardware distributing house. He has taken the post office in order to broaden his knowledge of the hardware business, and will return here as soon as his "course" is completed.

"Laxative Bromo Quinine Tablets" E. W. Brown

## S. A. Man in Sleuth Bureau to Track Down Bolsheviks

That the presence of Bolsheviks and other radicals is more general in Southern California than the public is aware of, was the assertion of Sid Smithwick, formerly a police officer here, who was back in Los Angeles today after a visit in Santa Ana.

Smithwick has become identified with a newly-organized bureau of industrial investigation, known as the Western States Intelligence Bureau, with offices in the Byrne building, Los Angeles. Smithwick is associated with C. W. Burke, veteran secret service man, and Frank McGurk, who was engaged in military investigation work for the army. All three men were in the employ of the government during the war, and will utilize their experience in giving large industrial concerns what is declared will be a high-class of service in connection with investigation of alleged L. W. W. activities.

During the war Smithwick was stationed at March Field as chief watchman and later at the plant of the Holt Manufacturing Company at Stockton, California, also as watchman.

Smithwick for some years was constable of Santa Ana township, for a time deputy sheriff and later a city police officer.

## RAINFALL HALTS MEXICANS' FETE UNTIL APRIL 4

Inclement weather conditions forestalled Santa Ana Mexicans yesterday in their plans for a celebration at Birch Park in commemoration of Lin. Benito Juarez, the Mexican Lincoln, and the program has been postponed until Easter Sunday, April 4. Proceeds from yesterday's celebration were to have been sent to Mexico to relieve sufferers from the recent earthquakes in that country. A large supply of foodstuffs were to have been sold for the purpose of raising funds for the purpose of the small crowd.

As the weather cleared in the afternoon about 400 persons gathered and a short musical program was rendered by the Mexican band, Hon. Eduardo, of Los Angeles, ex-governor of Colima, Mexico, and Dr. J. Z. Urburu, director-general of the American-Latin League, who were to have been the principal speakers, notified Rev. J. C. Nava, of this city, who had charge of arrangements, that they could not attend because of weather conditions. They said they would be here for the Easter program.

A large crowd is expected to attend the exercises to be given tomorrow night at the Grand Opera House under the auspices of the Pro-Patria Club. The proceeds from this entertainment also will go to earthquake sufferers in Mexico. J. A. Cranston, city superintendent of schools, is to speak and pupils from the local schools will take part in the program. A number of Mexican musical artists from Mexico City are also on the program.

## APRIL 9 SELECTED AS MEETING DATE

Final plans for making a survey of boy life in Orange county are to be made at a meeting of the county committee of the Y. M. C. A. on April 9.

The new County Secretary, George S. Chessum, of San Diego will be here by that time and will have his office arranged ready for his new duties, and will be settled in his home.

Committees to make the survey will be chosen by April 9, and they are to meet with the county committee and the secretary. The purpose of the survey is to gather definite statistics concerning the number of boys in the county, how many of them go to school, how many are employed at regular work, how many of them are in need of additional schooling facilities, how many are in need of additional recreational facilities. Out of this survey will come a program for the county work for the coming year.

## STAR WHIST CLUB IN ENJOYABLE MEETING

ANAHEIM, Mar. 22.—The Star Whist Club held a very pleasant meeting in their club rooms in the Masonic Temple with Mrs. S. Lybarger and Mrs. Edgar Hartung as hostesses.

At the close of the tournament Mrs. Sackett was awarded first prize, Mrs. Lybarger, second; Mrs. E. H. Metcalf, third, and Mrs. G. B. Daniels, fourth.

Twenty-four were present and at 5 o'clock a delicious luncheon was served by the hostesses.

Spencer Corset. 801 S. George St.

## 104 PER CENT GAIN MADE IN 1919 SHIPMENTS OVER PREVIOUS YEAR'S RECORD

The Tustin Hills Citrus Association shipped 176,539 packed boxes of fruit during the past year, an increase over the previous season of 104 per cent, it was disclosed today, in the annual report of Secretary B. A. Crawford, submitted at the annual stockholders' meeting at the packing house at Tustin this morning.

The total number of cars shipped, according to the report, was 445½, using the old basis of 396 boxes to the car, as against the previous year's total of 218 cars.

The coming season's crop, Crawford estimated today, will be as large as the 1919 total, and there is prospect for the returns being much greater.

Total Net Returns, \$524,652.78.  
The total gross returns of the 1919 crop amounted to \$614,471.23, and after deducting the packing return of 70 cents per 100 pounds, amounting to \$89,818.45, the net return to grower figure is \$524,652.78. The net return did not increase in proportion to shipments because of the higher average prices in 1918, and the fact that the car shortage prevented shipment of some fruit at the proper time.

The average price for the regular established brands of Valencia, including the refund, says the report, amounts to \$4.16½ per hundred pounds.

Continuing, the report says: Total Charges  
"The total charges that were retained for packing, separating, etc., amounted to \$89,919.88 and the income from other sources amounted to \$4,311.84, making the total revenue received during the year \$94,231.72. The total cost of operation, exclusive of depreciation has been \$88,232.61, the amount of depreciation allowed was \$2,823.91, making the total cost \$91,056.52. The difference between this revenue and cost amounts to \$3,175.20 and represents the amount of the season's house or packing refund. The total amount of the selling refund is \$2,555.61 to date. The total revenue per 100 pounds has been 73.44 cents and the total cost 70.96 cents, a difference of 2.48 cents as a packing refund. The selling refund on 1919 shipments to date amounts to .89 cents per 100 pounds and on 1918 shipments 1.13 cents, making a total packing and selling refund of 4½ cents per 100 pounds."

Shipments and Averages  
The following statement of shipments, net returns, etc., are included in the report:  
Valencias: 167,220 packed boxes; net returns, \$497,933.33; price per box, \$3.01½; per 100 lbs., \$4.84½.  
Navels: 8,902 packed boxes; net returns, \$25,596.37; price per box, \$2.87½; per 100 lbs., \$3.99½.  
Other grades: 417 packed boxes, net returns, \$1,062.82; price per box, \$2.57½; per 100 lbs., \$3.68½.

Directors during the past season were A. E. Bennett, A. G. Finley, J. A. McFadden, A. M. Robinson, F. B. Browning, C. J. Klatt, Perry Lewis, Officers were A. E. Bennett, president; A. M. Robinson, first vice-president; Jno. A. McFadden, second vice-president.

The rates at San Pedro submarine base will be open at 9 a. m. Inspection by visitors of submarine base, eagle boats, subchasers, U. S. S. Alert, ex-German submarine UB-38 and all other vessels attached to the base. Reserve members will be permitted to inspect the interior of submarines, but the public will not.

There will be maneuvers in the morning by Division Six, Submarine Force, including submerging in formation and under-water attack on subchasers. They must present necessary credentials as to their reserve status.  
Aerial attacks on submarines will be simulated by navy sea planes. Boats will be provided for all visitors to witness these events. The German sub will be open to the inspection of all visitors.  
The battleship Idaho may be visited by all who desire. Boats will be run continually throughout the day.

## Heard at the Churches

Brief extracts from sermons delivered by Santa Ana pastors during yesterday's services.

Rev. F. T. Porter, pastor of the Christian church, used as his sermon topic yesterday "A Change of Heart." He spoke in part as follows:

"Under all ages the heart has been spoken of and used in relation to the moral life, especially under the new dispensation.

"The heart is likened unto a mill that is running continually. Fill it with the golden wheat of pure thoughts and the outcome of it will be a life worth living. But if selfishness, sin and Satan supply the grist, the outcome will be mischief, misery and sin. The heart is determining the spiritual character, moulding our conduct, making us happy or wretched, fitting us for heaven or hell.

"All the mighty deeds that have blessed humanity were once thoughts. Before the angel's songs were heard on Bethlehem's heights, Christ's work was a divine thought. As the oak was once in the acorn, and the waving fields once carried out in the grain bag, so do all crops of deeds and service proceed from germs of thought. Every reform that has spread over the earth was first a thought in some heart.

"He is the best man who has the best thoughts, and the worst man is the one that kills the good thoughts and fosters evil thoughts.

"Sin lies in the heart in germs and not only in actions, and here is the best place to fight sin.

"The Bible plainly teaches that there must be a change of heart. But the heart to be changed is not this literal organ, for Christ says that our hearts can be in heaven while we are here on earth.

"The Bible heart thinks, reasons, believes, obeys, loves, desires and enjoys. The Bible heart, or mind, is divided into three parts—intellect, will and sensibilities—and to change this heart is not possible.

"If a man thinks evil, believes falsehoods, disobeys God and loves and enjoys sin, his heart must be changed, but 'if he loves the truth and thinks pure thoughts, his heart is all right.

"Sin affected the heart, the life and relation of man. Conversion must affect all that sin affected, so faith changes the heart, repentance changes the life, and baptism changes the relation.

SHOULD JUDGE RELIGION BY RESULTS, CLAIM

A very interesting and spiritual address on the work of the church in South America was given in the First Methodist church last night.

Prof. G. A. Werner, who is professor of history in the Methodist Academy, and has been pastor of the English-speaking church at Buena Ayres, Argentine.

Prof. Werner is a Swede by birth, and an American by adoption. He commenced his address by calling attention to the increased length of life which Christianity brings to the nations and peoples.

"The average length of life in Italy, Austria and South America is from thirty-five to thirty-eight years, while the average length of life in Christian America is from forty-six to forty-eight years," said the speaker.

"But the highest average longevity is in Denmark, Sweden and Norway, where the reformation is complete, for there is not a pagan or heathen society in those countries, is from fifty-one to fifty-three years. These figures are from the committee of one hundred in Washington.

"Now you must judge a religion, by its fruits, not by its creeds, but by what its creed does in practice. If the Methodist church had been in South America 500 years and over fifty per cent were illiterate, it would be in order for some church to come in and educate the Methodists. This is what we are doing for

the Catholics in that great country to the south.

"The hope of the future is not in the converts we are making from Rome, nor in the priests who have been converted at our altars, but in the great crowds of children who are in our Sunday schools and day schools and academies. At present we have eighteen schools and hope to have 1800."

The speaker called attention to the great expanse of South America. "You can put all of the United States and Europe, including European Russia, into South America and then have lots of land left for real estate men to sell," he said.

"From 1900 to 1913 the United States had an increase of population of 23 per cent, while South America in the same period had an increase of over 50 per cent. In the same period South America had an increase in trade of over 100 per cent more than the United States. The commercial advantages of the South American continent are unrivaled."

"UNTOTTING THRONE,"

IS PASTOR'S SUBJECT

Rev. William T. Wardle, pastor of Westminster Presbyterian church, preached upon the theme, "The Untotting Throne." The subject was taken from the book of Revelations. The argument of the article was in substance, as follows:

"God has left nothing unsaid, or undone, or hidden from view, that man needs for salvation, and for human living. In 'Revelation' the Unveiling of Christ, He has shown us His judgments, His glory, and the consummation of His plans. The central figure of the Book is the victorious, triumphant, crowned, enthroned Savior. What the pole star is to the season, truth is to the seeker, hope to the despairing, salvation to the lost, that and more, is Jesus Christ to human longing and need.

"What John on Patmos saw we can see. God has lifted the curtain that we may give Jesus Christ in heart and life, in thought and business, and sacrifice. His rightful place. For in no other way will any see and worship the 'Lamb in the midst of the throne.' But unless He is seen and personally known as the Lamb of God, God's supreme sacrifice, can He have chief place in our hearts and lives. Given supreme place, then new visions dawn, new principles of life and duty, and devotion to follow Him, will commandingly prevail in us.

"God has spoken for all time by His Son. God acted in the world's history, God has shown the crown-king. And what God has said, and done, and shown is evidenced by the 'Lamb in the midst of the throne.' There He is worshipped, owned, loved and served by the redeemed, and the celestial hosts.

"Before our eyes, in our earthly lives, the curtain of the inescapable future hangs. In His Word God has revealed His wonderful plans to us, and in this book of Revelation He has lifted the curtain, to inspire us to sacrificial living, and to give the Lamb, slain before the foundation of worlds, the rightful and supreme place in our hearts and lives."

## POETIC NAME SOUGHT FOR HAWAIIAN ROAD

HONOLULU, H. T., Mar. 22.—When the board of supervisors announced that they were going to call the new road circling the island "Belt Road," because it was a belt road, roads were always called belt road, many protests that the name was too commonplace. So the Honolulu Star-Bulletin started a voting contest for suggested names.

Of the twenty-eight names suggested "Lei Ilima Drive," proved the most popular with 874 votes. "Lei" means wreath, and "Ilima" is the flower of Oahu—so the full name means "Wreath of the Flower of Oahu."

The idea of calling the road a wreath, because it encircled the island, appealed in other forms. Second in the voting was "Lei Drive," "Alaloe" came third, because of its sweet cadence, but unhappily the word is used as a synonym for death, its translation being "The Long Road."

"Pershing Drive" got three votes, and "Roosevelt Drive" four. The name of the ancient king, Kamehameha, prefixed to "highway" was favored by twenty-four. Two women suggested "Prince Cupid."

The next effort now will be to get the supervisors to accept the result of the poll.

A lot of people seem to be sore on prohibition just now. But they will get over it. It's the same with virtue as with vice—the thing is to get used to it. You first endure, then pity, then embrace.

## CHECK THAT COLD RIGHT AWAY

Dr. King's New Discovery has relieved colds and coughs for fifty years

It was an unusually high quality cold, cough, gripe, and croup remedy when introduced half a century ago. Not once in all the years since then has the quality been allowed to deteriorate. Its effectiveness in combating colds and coughs has been proved thousands of times in thousands of families. Taken by grownups and given to the little ones for the safe, sure treatment of colds and gripe, coughs and croup, it leaves absolutely no disagreeable after-effects. Get a bottle at your druggist's today. 60c. and \$1.20.

## Bowels Act Human

—function gently but firmly without the violence of purgatives—when you treat them with Dr. King's New Life Pills. A smooth-acting laxative that gets right down to business and gratifying results. All druggists—25c. a bottle.

## TEUTON DIVER TO VISIT SAN PEDRO

(Continued from page nine)

day for this purpose, leaving submarine base dock. Sub-chasers, Eagle boats, Trawlers and motor launches will be used to take the guests to witness the submarine maneuvers. Sub-chaser 308, one of the vessels which has been in Newport harbor on different occasions, will be the target vessel for the submarine maneuvers and will also carry visitors. All the submarine base personnel will act as guides throughout the day.

Owing to the uncertainty in the number of visitors, it will be impossible to furnish luncheon and dinner in the base mess halls. Lunch stands will be arranged for the convenience of visitors and the usual city charges will be made.

Special trains will be run from the base to San Pedro to connect with trains departing for Los Angeles. There will be an abundance of parking space for automobiles and every machine will be tagged, insuring against danger from theft.

The afternoon program will start at 1 o'clock with a baseball game between the submarine base team and the All-Stars of Los Angeles. At 3 p. m. there will be four boxing bouts.

At 3:30 p. m., there will be push-ball contests—Sub-Base Chief Petty Officers vs. Idaho Chief Petty Officers, Sub-Base Enlisted Men vs. Idaho Enlisted Men. Each team will be composed of thirty men.

3:45 p. m., cup fight.

4 p. m., Motion picture show in base auditorium, continuously from 4 p. m. Vaudeville entertainment by Sub-Base and Idaho talent, commencing at 6:30, with motion pictures immediately following.

8 p. m., Dancing in base gymnasium.

NEW MARCH RECORD FOR RAIN LOOMING

(Continued from page nine.)

not only in farming their lands but in building improvements.

Big Beet Yield Due

With beets promising big returns under the contracts the factories are now offering, many bean growers this year are diverting to beets and it is anticipated that the acreage devoted to the sugar producers this year will be back to where it was a few years ago, before beans offered the better inducement through financial returns.

There now is no doubt but that all the sugar mills of the county, five in number, will operate the coming season. The Southern California plant, which is one of the three factories owned by the Holly Corporation, did not run last year, because of the shortage of beets.

## WALTER HONEY PROMOTED.

ORANGE, March 22.—Walter R. Honey, who attended the Orange high school and later the Throop Polytechnic at Pasadena, and is now in the marine detachment, Company 152, stationed at San Diego, has been promoted to corporal. He is stenographer in the Sergeant Major's office.

## ENTERTAINS AT LUNCHEON.

ANAHEIM, March 22.—Mrs. W. K. Sulter entertained at luncheon for a coterie of friends. Spring flowers were attractively arranged in the dining and living rooms and her guests included Mrs. C. L. Robinson and son Glen of Los Angeles. Mr. and Mrs. A. L. Winney of Montebello and Miss Alice Winney of Anaheim.

## MOVE TO ORANGE.

ORANGE, March 22.—Mrs. E. C. Robertson, accompanied by her sister, Miss A. M. Prichard, R. N. have moved from Long Beach, where they have resided for the past year, to 174 South Center street, which property Mr. Robertson purchased last January from L. C. Gates.

## TUSTIN HILLS MEN HEAR O. K. REPORT

(Continued from page nine)

vice-president; B. A. Crawford, secretary-manager.

No quorum was present at the meeting this morning, and an adjournment was taken until the morning of April 6, two weeks from today, when a board of directors is to be elected. It is expected the old board will be re-elected.

## OCEANVIEW TEACHERS VISIT L. B. SCHOOLS

WINTERSBURG, Mar. 22.—Wednesday was declared "teachers' visiting day" at the Oceanview school, and Misses Ruth Jordan, Ethel Dwyer and Ethel Eastham took advantage of it to visit in Long Beach. The Atlantic Street school was visited, the teachers spending the entire day in their special departments and gaining new ideas for their work.

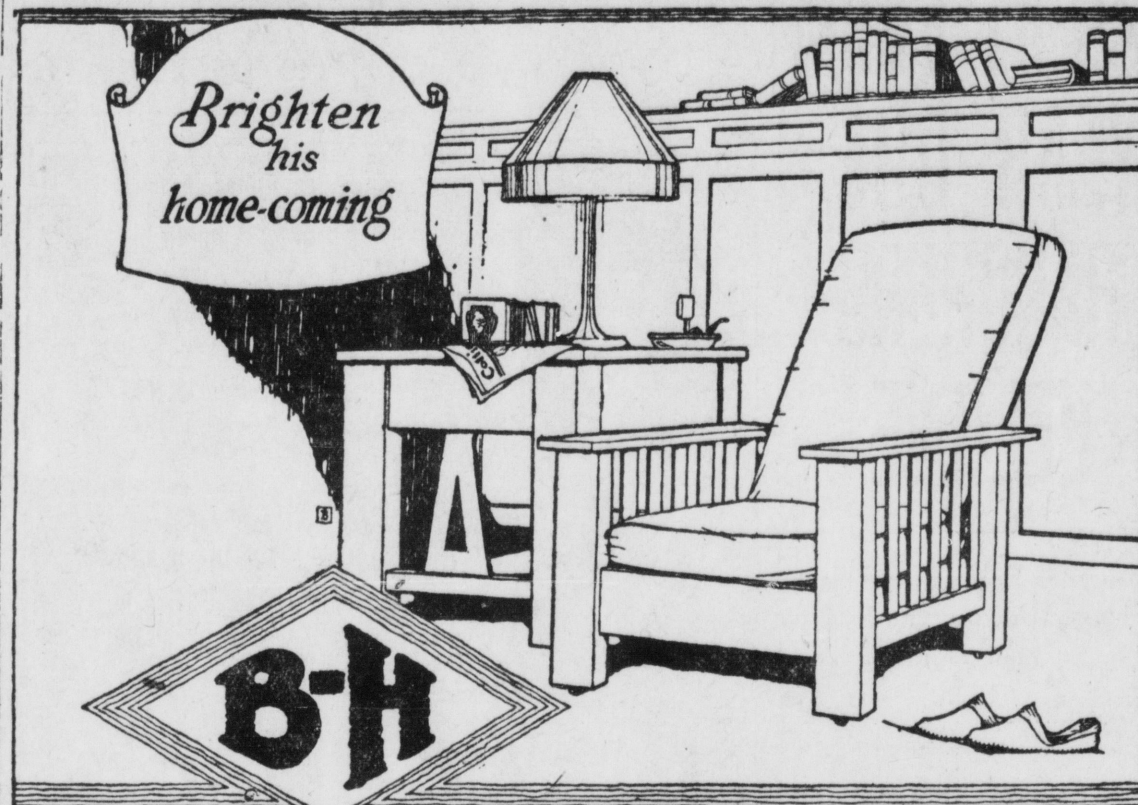

## A Public Benefactor

The dry-cleaner of today, if he can and will do honest work, is a public benefactor. In these strenuous times there is nothing that is contributing more toward solving the H. C. L. problem than the dry cleaning business and that at a cost, not inflated but comparable to pre-war prices. There is not another thing you can think of but your dry cleaning bills that has not advanced from 50% to 100% in the past two years. Therefore, at the present prices there is nothing in which you can invest \$1.50 and get so great returns as in a thorough rehabilitating of that partially worn or soiled suit or dress and make it take the place of a new \$75 garment. First class cleaning spells economy.

**Karo**

YOU don't have to pay the present high prices for your jams, jellies and preserves nor the high price for store candy.

Use Karo—the Great American Sweet for every purpose. Karo is another word for economy.

Many women have learned that Blue Label Karo is not only a delicious spread for pancakes, but will sweeten their food at much less cost than sugar, and make the most wholesome Home-made Candy.

Stewed fruits, candied sweet potatoes, brown bread, muffins, coffee cake, pudding—hundreds of foods are now prepared by the best cooks with Karo.

NOTE: Your grocer is selling Blue Label Karo by the dozen cans—the best and cheapest way to buy it. Ask him the price.

## SEIDEL'S MARKET

The Most Sanitary and Modern Meat Market in Orange County

220 West Fourth

Henry Seidel, Prop.

You will always find this good market a step ahead of the procession. We not only meet the desires of the government in the observance of "Cheaper Meat Week" but we anticipated the necessity of it and commenced our campaign ten days ahead of the Government Announcement.

You will also find this market a step ahead of the procession in meeting and anticipating the desires of the public.

We urge you to buy the fore-quarter meats because it is in line with proper economical ideas. We believe that by showing you a way to save a bit of your weekly table allowance we will be doing you a service. That's what we're here for—service.

But no matter what you pay for meats, you'll never buy anything but the choicest select meats here, whether it be from the fore-quarter or from the higher priced cuts.

When you want to be SURE that your meats are what they should be come direct to

# Seidel's Market

## VALENCIA MARKET

Corner Fourth and Broadway

### Two Ways to Economize

There are two ways in which you can economize in buying your meats.

One way is to choose the less expensive cuts and the other is to take advantage of our unusual buying facilities.

The prices of meats are still a bit high in this vicinity but we are going to continue the efforts we started a short time ago to bring the prices of good meats down.

If you have been dissatisfied with the service and the prices elsewhere you will find buying at this market truly gratifying.

Our first aim is to see that each customer gets the best quality possible for his money and the second aim is to give him a perfect service.

We solicit your co-operation and we assure you that it will always be appreciated.

"CHEAPER MEAT WEEK"

March 22 to March 27

Cor. 4th and Broadway

VALENCIA MARKET

E. A. FEUQUAY, Mgr.

## We Always Save You Money

The people who trade at the Gerrard Markets know that they are always able to save a bit of money on their purchases. This is "Cheaper Meat Week," during which the public is asked to buy the less expensive selections of meat. We are always in line with anything that the government requests. There are other ways in which we are saving you money, also.

### WHY NOT SAVE ON GROCERIES, TOO?

If you get the habit of buying all your provisions at the Gerrard stores you will be away ahead at the end of each month.

The greatest way in which the retailer can benefit the public is by cutting his margin of profit down to the limit on everything. That's what we are doing. We defy any store in Southern California to show that it is doing business on a smaller margin of profit than Gerrard's.

## "Cheaper Meat Week"

This week, March 22 to March 27, has been set aside by the Department of Justice as "save money on meat week."

During this week the public is requested to buy the cheaper cuts of meat, refraining from tenderloins and high-priced roasts and chops. Chuck roasts, stewing meats and those portions of the animal, especially suited for soup making are to be bought. While the campaign is on the department will hold prices level, preventing any profiteering in these lower priced cuts.

One of the reasons always advanced by the meat sellers for the high cost of meats is that the public will not buy the cheaper cuts. They are practically waste on the dealer's hands, and in order to cover that loss he is forced to charge more for the meat he can sell. Also, the greatly increased demand for the better grades of meat leads to a natural decrease of the supply, with the following unavoidable raise in price.

The public should join heartily in this experiment. Even those happily plutocratic people who can afford the higher prices should realize that a national wrong is to be righted if possible, and should confine themselves to the purchase of those cuts of meat recommended during the campaign. The movement can be successful only through widespread unselfish co-operation. Moreover, the lasting effect upon prices will come only if a great majority of the people learn, through this period of intensive education how useful and delicious the cheaper grades are in varying the menu, and so come to demand them more frequently.

## Eating With the Hat On

There is a growing tendency today among the younger American housewives to look upon anything that is inexpensive for the table as an inferior article. The preparation of appetizing dishes from the less expensive cuts of meats is a good old-fashioned art that is likely to become lost in the rush.

There is, according to the Department of Justice, an inclination to "eat with the hat on." The restaurant-eating public has come to demand a generous porterhouse or sirloin no matter what the cost, but this week the government is asking the eating houses to serve fore-quarter cuts. Pot roasts and stews will be fashionable. If the chef knows his business the less expensive meats will be just as appetizing and fully as wholesome as the much wanted "high brow" variety and the cost of the meal, if the fore-quarter service gets to be a regular thing, will more than likely be less expensive.

At least the demand that the campaign is intended to create for the cheaper cuts of meat will tend to stabilize the market. There is too much difference between the prices of fore-quarter and hind-quarter meats. Let us join in the general campaign and get the "Lower down and farther front" habit.

—Surprising, isn't it, what a difference there is between—  
Cheaper Cuts of Meats  
and  
Cuts of Cheaper Meat

You will find on display at your Acme, at all times, a complete assortment of the cheaper cuts of meat—  
—in Beef—in Pork—in Veal

Cheaper Cuts of the best meat we can buy—meat selected with the greatest of care—the choice from the enormous "coolers" of the largest as well as the smaller packers.

—Cheaper Cuts of the best meat are rich in nutrition—are tender and full flavored—and economical.

—Here comes the difference.

—Cuts of cheap meat, yes even the best cuts of this meat, lack in food value—are generally tough and stringy—and costly at any price.

—The government urges, and we urge you, to use this week some of these cheaper cuts—but above all, for the sake of economy and your own satisfaction, do not confuse

Cuts of Cheap Meat  
with  
Cheaper Cuts of Meat

—You'll find both pleasure and profit in daily visits to this clean inviting food store and market.

### "Cheaper Meat Week"

BUYING wisely means merely getting your money's worth.

There is no subject so constantly thrusting itself upon the housewife as the problem created by the High Cost of Living.

It will pay you to seek out the places where real ECONOMY awaits you. This market is one of them. The Central Market was the first in Santa Ana to cut down the prices of meats. We shall continue to set the pace and we want your co-operation.

QUALITY and SERVICE

Quality—Your Pleasure

Service—Free Delivery

We believe it is our duty to encourage Thrift.

The practice of Economy in buying is something that is being lost sight of by the average American. Not only the people in moderate circumstances but the well-to-do as well can help us to keep prices down by their co-operation.

This is "Cheaper Meat Week"—set aside by the Government to induce people to get back to the old time money-saving habits.

This store will be found always ready to help you save.

This week we are urging you to give the less expensive cuts of meat a fair trial.

But EVERY week you will find us offering the very best quality that you can get anywhere for the money.

# News from Orange County Towns

## PEARSONS LEAVE TODAY, RETURN TO DETROIT

HARPERVILLE, March 22.—Clarance Pearson and wife are leaving today for Detroit, Mich. Mr. Pearson goes under protest, as he dislikes very much leaving California, but large real estate holding make it imperative that he return and look after his interests.

Mr. Pearson the elder will remain here and make his home with his other son, John, who lives on one of the properties purchased by Clarence Pearson, and who is now a full-fledged chicken man.

Clarance Pearson will return next summer sometime and eventually will make California his home. His boosting of California is only equalled by that of Thomas Plant, manager of the Terminal hotel for the people of Detroit. But Tom is in a class by himself, and when he commences making comparisons between Harperville, Calif., and Detroit, Mich., it is certainly worth the price of admission to be in his audience.

**Ranch Work Under Way.**

George Tyler has finished plowing both Thomas Plant's ranch and that adjoining it, owned by Mrs. Stephens. George did the work with his International tractor, preparatory to the planting of the entire tract to lima beans, by Rollin R. Rossetol.

At the same time Albert Christensen, a returned soldier of the world's war, is discing the orange grove for Rossetol and disposing of a fine Melliot cover crop.

Albert visited Los Angeles one day recently and purchased a classy fisherman's outfit. Reel, rod, hooks, sinkers, and everything that fits out a deep-water fisherman. Incidentally, Albert also brought home a Case seven-passenger automobile. The purchase of the auto was incidental. Al says, as the real business was the purchase of the fishing outfit.

Nathan Harmon and "Billy" Young have purchased all the waste products of the Santa Ana Wholesale Grocery, for use in feeding their drove of hogs. The porkers will feed now on beans, raisins, wheat four and spaghetti.

W. O. Broady was seen riding in his auto, and everyone was pleased to see Broady out and riding about after his confinement in the Santa Ana hospital.

**"Ghost" Afflicts Marmion.**  
Harry Ackerman is the latest to report a visit of the ghost that has been seen and met a number of times by residents of this vicinity. Harry is not just certain that the "Hombre" is responsible for the strange noises that are heard in his garage, and after all power is turned off, that strange and unaccountable manifestations occur. The Marmion begins to tremble and then, with increasing power, quivers and emits a strange noise, soft and low, like the moaning of an Aeolian harp, or the voice of a ouija board. This, Harry says, occurs at night usually about 10 o'clock. Anyone skeptical can easily see for themselves, Harry says, and he will be glad to convince them.

Rev. Jones, pastor of the Los Alamitos Friends' church, preached to an interested congregation yesterday from the theme, "The Stewardship of Money."

Mrs. Ackerman and daughter were the guests of Mrs. Rollin R. Rossetol one day the past week, and Mrs. Rossetol was the guest of Mrs. Ackerman one day.

A number of Harperville residents attended the meeting of the board of directors of the Garden Grove Citrus association last Monday night. E. M. Dozier was re-employed secretary and manager of the association for another year.

Harperville has a young horseback rider who rides daily up and down the roads and across country. The galloping of the young gentleman's pony can be heard as he daily rides through the town north and south, east and west.

**Dr. Bowers' Eye Hurt.**

Dr. C. A. Bowers, a former resident of Harperville, but now an employee of the Huntington Beach Sugar factory, while working at the factory in some way injured one of his eyes, and has been confined to his home wearing a patch over the optic. He is assured by his physician that the injury is only temporary. The doctor's many friends are sympathizing with him in his accident. The doctor is a great fisherman, and has his own private pier, and needs to keep his eyes open when fishing.

**Dozier Sets Out Oranges.**  
E. M. Dozier has erected a new water tank on his ranch and completed the planting of one-half of his forty acres, recently purchased, to orange trees.

That Harperville is a busy community is witnessed by the rumble of tractors that may be heard by day and night. Thursday night Hugh Tyler worked at night, as his brother George was too busy and too tired to do the work needed, having worked that same day from daylight to sundown without stopping even for lunch.

Senator Amos is another of our citizens who protests against the king of England's method of creasing trousers on the side of the leg instead of in front and back. The senator says any man who wears his trousers so creased is effeminate and automatically becomes a candidate for the old ladies' home, and serves notice that he will see that they are placed there forthwith. Beware of the side creased trousers, gentlemen.

C. B. DeWitt, the "old man eloquent" of Harperville, says times are dull with him. No discussion is arising and he proposes a discussion of candidates for the presidency of the United States, either from a political or personal point of view.

Henry Blaholder and Billy Northcross are taking out the bumps of Blaholder's ranch near Harperville. The recent rains showed plainly

## Two Million Dollars Total Value Produce From Grove District

GARDEN GROVE, Mar. 22.—J. H. Sandman, local Pacific Electric station agent, and G. R. Reyburn, secretary of the Chamber of Commerce, have compiled data for all products shipped from Garden Grove during the year 1919, as follows:

Oranges and lemons, 126 cars, 1,775 tons.  
Walnuts, 40 cars, 483 tons.  
Sugar beets, 130 cars, 4,662 tons.  
Potatoes, 11 cars, 157 tons.  
Dry chili peppers, 121 cars, 1,455 tons.  
Green chili peppers, 32 cars, 1,990 tons.  
Tomatoes, 33 cars, 328 tons.  
Cabbage, 37 cars, 439 tons.  
Pimientos, 75 cars, 1,125 tons.  
Eggs, 3,283 cases, 98,490 dozen.  
Sweet potatoes 26 cars, 404 tons.  
Approximate total value, \$2,000,000.

## M. E. BEEBE HEADS DRIVE AT ANAHEIM

ANAHEIM, Mar. 22.—Marshall E. Beebe is to be chairman of the Anaheim Jewish Relief campaign. It was announced after Beebe had been interviewed by Dr. Kellogg of Santa Ana, county chairman, and Field Manager Shaw, and consented to direct the fund-raising work here.

Among members of the local committee appointed to date are the following:

Fred Backs, C. F. Grim, Herman Stern, Frank Baum, H. H. Benjamin, Albert Graham, F. T. Ermiston, F. K. Gresswell, G. W. Sandman, W. H. Schureman, F. E. Halliday, W. C. Maureman, Chas. Eygabroad, A. Nagel, J. Frederick Ahlborn, William Falkenstein, Chas. Federman, S. C. Hartman, Elmer Brus, Ed Schneider, Geo. Ross, Wm. Dolan, Mrs. Fay, Miss Calnon, Miss Raymond, Mrs. H. O. Henderson, Mrs. York, D. Jessurun, H. G. Ames, Rev. P. Browne, H. A. Dickel, J. J. Dwyer, F. N. Gibbs, B. Hartfield, Rev. C. B. Hatch, J. S. Howard, Miss Sophie Rimpau, Rev. H. G. Schmeltzer, Rev. L. Swindle, Wm. T. Wallop, Mrs. L. C. Yeoman, E. H. Metcalf, John Reuther, J. Harry Whitaker, Rev. Humphrey, John P. Taggart, H. M. Adams, H. E. W. Barnes.

## COAST COLLEGES GO IN FOR RING SPORT

PULLMAN, Wash., March 22.—The universities and colleges of the coast are going in for wrestling and boxing in a degree that promises to bring great strength to these sports among the amateurs. Whatever sport colleges take up in an official way, always leads to strength of sport not only among the colleges but among amateurs in general. Washington State college has some fine wrestlers. Logan, a 125 pounder, Pearson, a welterweight, and Guldjord, a middle weight, are three of the college champions who are now looking for matches with the best college men of Oregon and California.

Enclosed cars, day or night, city or country trips. Crown State Co. Phone 925.

Dr. Magill, Osteopathy. Phone 954W.

where the low places are, by standing pools of water.

Arthur Schultze says he is making money daily by waiting for the exchange of automobiles, as his old machine is growing in value. "Art" is the gentleman who shook his fist at a tire sign and before he could get his hand down to his side, "Bang" went one of the same tires as the ones advertised. It is dangerous practice to shake a fist at signs of any sort along the public highway.

Martin Christensen visited Los Angeles one day and bought an entire fishing outfit. Martin is noted as a fisherman especially, and pipe making and laying is his recreation.

## SICK WOMEN HEAR ME

You Can Be Free From Pain  
as I Am, if You Do as I Did.

Harrington, Me.—"I suffered with backache, pains through my hips and such a bearing down feeling that I could not stand on my feet. I also had other distressing symptoms. At times I had to give up work. I tried a number of remedies but Lydia E. Pinkham's Vegetable Compound did me more good than anything else. I am regular, do not suffer the pains I used to, keep house and do all my work. I recommend your medicine to all who suffer as I did and you may use my letter as you like."—Mrs. MINNIE MITCHELL, Harrington, Me.

There are many women who suffer as Mrs. Mitchell did and who are being benefited by this great medicine every day. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration.

Lydia E. Pinkham's Vegetable Compound contains no narcotics or harmful drugs. It is made from extracts of roots and herbs and is a safe medicine for women. If you need special advice write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

ANAHEIM, March 22.—The culture of celery, which used to be produced in this district in large quantities but has since been almost abandoned, has not entirely ceased, as evidenced by announcement that C. W. Wells is going to plant five acres to celery this year. He has been busy the past few days preparing the seed bed. L. T. Wells is also planning to plant a small acreage to celery. The remaining fifteen acres of the C. W. Wells place will be planted to pimientos and beans.

S. E. Talbert has a Mexican crew of six men thinning his beets.

Miss Jessie Courreges is in Los Angeles on an indefinite visit with relatives.

J. W. Culver, who has a large acreage of the Nimock's ranch leased, had just finished planting the last of his beets when the last rain came. Mr. Smith, who has the northern part of the same ranch, is now preparing to put his beet crop in.

Mr. and Mrs. S. E. Talbert, John Pope, Miss Smith, Mr. and Mrs. Fred Pope and the latter's sister, Miss May Starkey of Garden Grove, and Mr. and Mrs. J. H. Miller attended the funeral of Harvey Studebaker's sister Thursday. The funeral was held from the Brown chapel on Flower street, Los Angeles, and Harvey was in the family lot at Covina by the side of her mother. Harvey Studebaker, who went to Los Angeles Wednesday, will remain in the city for a few days.

## WELLS TO PLANT FIVE ACRES TO CELERY CROP

TALBERT, Mar. 22.—The culture of celery, which used to be produced in this district in large quantities but has since been almost abandoned, has not entirely ceased, as evidenced by announcement that C. W. Wells is going to plant five acres to celery this year. He has been busy the past few days preparing the seed bed. L. T. Wells is also planning to plant a small acreage to celery. The remaining fifteen acres of the C. W. Wells place will be planted to pimientos and beans.

S. E. Talbert has a Mexican crew of six men thinning his beets.

Miss Jessie Courreges is in Los Angeles on an indefinite visit with relatives.

J. W. Culver, who has a large acreage of the Nimock's ranch leased, had just finished planting the last of his beets when the last rain came. Mr. Smith, who has the northern part of the same ranch, is now preparing to put his beet crop in.

Mr. and Mrs. S. E. Talbert, John Pope, Miss Smith, Mr. and Mrs. Fred Pope and the latter's sister, Miss May Starkey of Garden Grove, and Mr. and Mrs. J. H. Miller attended the funeral of Harvey Studebaker's sister Thursday. The funeral was held from the Brown chapel on Flower street, Los Angeles, and Harvey was in the family lot at Covina by the side of her mother. Harvey Studebaker, who went to Los Angeles Wednesday, will remain in the city for a few days.

T. A. Wells motored down from Los Angeles in his new Dodge car Thursday evening and visited at the L. T. Wells home.

**Leo Borchard Returns.**

Leo Borchard has arrived home from Texas where he had been on a business trip with a party of friends. He reached home several days in advance of the date he had contemplated returning. He had a most delightful trip and weather conditions proved perfect throughout.

Mr. Donaldson, who with Mr. Hubbard was in partnership in the Brewer blacksmith shop in Talbert for some time, is spending the week here while settling up business affairs not seen to when the shop was closed some weeks ago. Donaldson is employed by the Goodyear Rubber company in Los Angeles.

Mrs. S. E. Talbert drove over to Long Beach and brought Mr. Talbert's sister and husband, Mr. and Mrs. J. W. Miller, home with her for a visit.

**Beet Outlook Bright.**

Messrs. Ford and McLeary, field men for the sugar company were over the Talbert beets this Thursday and stated they have never seen better prospects for an A-1 beet crop than there is this year.

Mrs. L. A. Dunn left Friday for San Luis Rey. She will be gone an indefinite period and may locate there permanently.

**Move Talbert Dredger.**

Preparations for taking the Talbert dredger to Los Alamitos are under way, where an outlet from the sugar factory will be dug for the sugar company.

Ed Helm is now able to sit up for the first time in three weeks, during which time he was very ill with influenza.

Mrs. M. A. Nimocks has returned from a five days' pleasant visit with friends and relatives throughout Los Angeles county. Leaving here Mrs. Nimocks spent one day at Alhambra at the home of Mr. Yelland, whom she took when a small boy and raised. The day being Mrs. Nimocks' natal day a sumptuous turkey dinner was given in her honor, with eight guests present for the occasion. Before her return home Mrs. Nimocks also visited with her brother at Santa Monica and with a niece and other relatives in Los Angeles, enjoying a delightful time throughout her trip.

**JOE GILTZ SURPRISED  
ON ANNIVERSARY DATE**

FULLERTON, March 22.—Joe Giltz, of Fullerton, was tendered a surprise party by a number of his friends in honor of his birthday anniversary. The hours passed all too quickly in merry conversation, and in playing a variety of games, also a number of musical selections, both vocal and instrumental, were enjoyed. Late in the evening a delicious repast was served. Those present, aside from Mr. and Mrs. Joe Giltz, and little son, William Joseph, were: Mr. and Mrs. R. O. Goodson, Mr. and Mrs. Frank Teeters of Fullerton, Mr. and Mrs. M. D. Falconer, Mr. and Mrs. C. B. Goodson, Dr. Horace Howard, Miss Hannah Horwitz of Anaheim, and Mrs. E. Horwitz of Los Angeles.

**HIGH SCHOOL WEEKLY  
STARTED AT ANAHEIM**

ANAHEIM, March 22.—Feeling the need of a common medium of expression, students of the Anaheim high school have at last started in the newspaper publishing business, and the first issue of the weekly "Anoranco," a sparkling, newsy little sheet, is out. The classes of business, English, and advanced stenography are responsible for the publication and will continue in charge until the student body is ready to "daddy" the student's paper. The staff of "The Anoranco" is given as follows:

Administration—Martha Fisher, Helen Weber.

Athletics (Boys)—Oral Gordon.

Athletics (Girls)—Lucile Baumgartel.

Assemblies—Mildred Spain, Lilian Clemmer, Nanley Rieley.

Humor—Helen Carpenter.

News—Minnie Wallace, Blanche Lensing, Lydia Betz, Roberta Wagner, Alice Wysser, Lloyd Ross, Ruth Kahly.

Advisor—E. M. Fursue.

**Heffern Well Spouts  
Gas, Gives Financial  
Backers Hope for Oil**

ANAHEIM, Mar. 22.—Is the Heffern "Sand Wash" well No. 1 going to develop into a producer, or is the belching of gas, evident the past few days, just a last despairing spasm of the well before giving up the ghost?

This is the question uppermost in local people's minds, especially those of Heffern stockholders, following reports that for several days past, while bailing water has been in progress, the bailer brings up ahead of it a column of gas which, when ignited, burned to a height of 15 or 20 feet.

The gas is not taken as conclusive evidence of an oil well, but it shows that there may be something worth while around the 2980 to 3250 foot depth, where the pipe was perforated.

## Heffern Well Spouts Gas, Gives Financial Backers Hope for Oil

ANAHEIM, Mar. 22.—Is the Heffern "Sand Wash" well No. 1 going to develop into a producer, or is the belching of gas, evident the past few days, just a last despairing spasm of the well before giving up the ghost?

This is the question uppermost in local people's minds, especially those of Heffern stockholders, following reports that for several days past, while bailing water has been in progress, the bailer brings up ahead of it a column of gas which, when ignited, burned to a height of 15 or 20 feet.

The gas is not taken as conclusive evidence of an oil well, but it shows that there may be something worth while around the 2980 to 3250 foot depth, where the pipe was perforated.

The job now is to shut off the water and it is no easy job for the Chapman well was several months accomplishing that result. The Heffern has been drilling 12 months, and the Chapman was 22 months "coming in," so the Heffern has ten months yet to go.

**NEW PHONE EXCHANGE  
IS SOUGHT AT BREA**

BREA, Mar. 22.—Brea wants a local exchange of the Pacific Telephone and Telegraph company, but has no hope of getting it installed within a year. These facts developed at the last meeting of the Chamber of Commerce, when C. H. Woodruff, a member of the telephone committee, reported that he had talked with some telephone company officials, and gave some illuminating points on the situation. If Brea really wants a local exchange she can get it, he reported, but it would probably be a year before the company could get it installed. It was decided to invite Manager E. S. Morrow of Santa Ana to address the next meeting of the chamber on April 19 in regard to the proposed new exchange.

**Sell Dairy Route**

The Hambletons have sold their milk route to the Fullerton Dairy and will move to Riverside where they will start a dairy. Mr. Hambleton will move his stock and equipment so that he will be in shape for immediate business in his new location.

**Plan April Food Dance**

The Brea Post, American Legion, is planning for a big April Food dance on Friday, April 2, and the dance committee, Messrs. Vescelius and Hollingsworth, give assurance that it will be even better than the last Legion dance, which is saying something. The next meeting of the local post is set for March 31.

**PLAN PROGRAM FOR  
APRIL 13 CONVENTION**

WINTERSBURG and SMELTZER, Mar. 22.—At a meeting of members of the committee of the Westminster Sunday School District at the local Methodist church arrangements for the program for the 1920 convention were made.

The local Sunday school will be host to the convention which will be held here on April 13th.

The program committee includes Rev. Kitzmiller of Orange county, secretary; Mrs. Ethel Warner of Westminster; Rev. G. W. Francis of Garden Grove; Garfield Allen, Garden Grove; Boydon Hall, Huntington Beach; Rev. Harwin, Huntington Beach; Mrs. A. H. Moon, and Rev. J. Scott Willmarth of Wintersburg.

**FRIENDS OF IRELAND  
TO ORGANIZE BRANCH**

ANAHEIM, March 22.—A northern Orange county organization of the Friends of Irish Freedom is to be definitely formed here at a mass meeting in the near future, it is announced following a meeting where partial organization was effected. Organizer Helfrich, accompanied by J. D. Lavin, Timothy Shea and Mr. McCarren of Fullerton, visited towns in the territory last week, and it was agreed that headquarters of the local organization be established in Anaheim.

**BUT 1 STANFORD MAN  
ON ALL-STAR FIVE**

PORTLAND, Ore., March 22.—Basketball attained a high pinnacle of excellence in the college series just finished. All over the coast the college players showed remarkable ability. Stanford University of California won the Pacific Coast conference title, but the men in all other teams were so good that only one Stanford man found a place on the all star coast team that has been announced as follows: Forwards, Durno, U of Ore.; Pockey, Wash. State, center, Righter, Stanford, guards, Eggleston, U of Cal. and Cook, U of Wash.

**VIRGO HOME FROM  
VISIT TO ENGLAND**

ANAHEIM, March 22.—Edwin Virgo has arrived home from a several months' trip to his parents in West Sussex, England. Leaving here last September, the day after the railroad strike was started in Los Angeles, he arrived in England the day before the railroad strike began in England. Mr. Virgo states that conditions are very unsettled in England and that living is very high, and that while he had a most delightful trip he is glad to be back in good old Anaheim once more.

**DEL MONTE TO SEE  
CLASSIC POLO CLASH**

DEL MONTE, Cal., March 22.—One of the polo classics of the country will be played here, starting April 15, when teams representing the east and west will clash for the championship of the two sections. Samuel F. B. Morse has donated a beautiful cup for the competition, and the American Polo association in New York is now busy gathering the best eastern men to take the trip. A string of about thirty champion polo ponies will come here from New York.

**Schilling Tea is cheer.  
Common tea is gloom.**

Schilling Tea delights and invigorates—it is a gentle stimulant harmless to stomach and nerves.

Common tea irritates. It's pucker taste is due to a large percentage of tannin—and tannin is bad for stomach and nerves.

For health and enjoyment, drink fine tea—Schilling Tea.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.
